# CLEAN AIR POLICY

## PLEASE DON'T USE SCENTED PRODUCTS

WHEN ATTENDING FPSE MEETINGS AND  
EVENTS OR IN THE FPSE OFFICE.

*These include perfume, cologne, aftershave, and other scented personal care products, such as soaps, deodorants and hand lotions.*

# WE SHARE THE AIR

# Scented products indoors can have an impact on health

**T**he Joint Occupational Health and Safety Committee ask all staff and visitors to the BCTF office to refrain from using personal scented products in consideration of those who are negatively affected by these scents.

Scented products include perfumes, colognes, hairspray, lotions and other products. Scented products may cause symptoms such as rashes, severe headaches, nausea, dizziness and fatigue or may trigger asthma, allergies, migraines, etc. in individuals with sensitivities to these products. People with no pre-existing sensitivities may also experience negative symptoms such as eye or upper airway irritation.

***Thank you for your co-operation and consideration of others.***
