## **PREFACE**

Member locals of the Federation of Post-Secondary Educators of BC represent more than 10,000 faculty and staff at post-secondary institutions in British Columbia. FPSE provides them with a collective voice.

FPSE was formed in 1970 as the successor organization to the College Faculties Federation. From 1980 to 2004, the organization was named the College Institute Educators' Association of BC.

This manual is a compilation of policies approved at Annual General Meetings from 1980 through 2019. Its purpose is to provide Presidents' Council, local executives, FPSE committee representatives, and delegates to the Annual General Meeting with an accessible source for FPSE policy and operations.

All current and relevant policy resolutions adopted at FPSE's general meetings since the 1980 Convention are included. Resolutions authorizing specific action and resolutions establishing policy that is no longer relevant due to changed circumstances have not been included. Outdated policy has been archived and is available through the office and on our website ([www.fpse.ca](http://www.fpse.ca)). Italicized dates at the end of a section indicate the year in which a change was adopted at an AGM. If an amendment originated from another FPSE body, that is noted next to the date as well.

Date: September 2019

### III. STANDING COMMITTEES

#### Intent, Operational Policies and Procedures, and Participant Roles

Statements of policy and responsibilities found within the Terms of Reference for Standing Committees are set within the context of section 7.10 of the FPSE Constitution, where Presidents' Council is mandated as the governing body between AGMs. Standing Committees are therefore responsible to Presidents' Council and to the AGM. They report to Presidents' Council and to the AGM on all matters within their purview.

As the needs of FPSE develop and change, Presidents' Council may from time to time direct specific tasks to Standing Committees or form new Standing Committees to deal with new issues.

Standing Committees are subject to the operational policies of FPSE as interpreted and administered by Presidents' Council and the President. Any Presidents' Council action to stand down a committee for reasons other than non-representation cannot take effect until such action is confirmed by the AGM.

#### INTENT

Within the operational context of being responsible to Presidents' Council, Standing Committees are intended to provide forums for the exchange of information and advice amongst FPSE locals. They provide a means to increase both the capacity and potential of FPSE and its locals to plan, prepare for and take informed action on vital matters of concern to our membership. Standing Committees can also provide or be asked to provide specific advice or recommendations to Presidents' Council and/or the FPSE President on topics within their purview.

#### OPERATIONAL POLICIES

The Terms of Reference for each Standing Committee set out each committee's operating policies. Internal Policy 1.17, Standing Committees, provides additional guidance. Failure to comply with policy 1.17.4 on required representation may lead to a committee being stood down.

#### PARTICIPANT ROLES

##### Committee Chairs

Chairs ensure that committees adhere to the FPSE Constitution, that they are aware of the relevant approved FPSE policy parameters for their work, and that committees work to fulfill their advisory functions for Presidents' Council and/or the FPSE President.

##### Executive Liaisons

Executive Liaisons act as conduits of information and decisions between Presidents' Council and the Standing Committee to which they are appointed. They may provide input to committee Chairs in the development of committee agendas. Executive Liaisons represent Presidents' Council to committees. In the absence of the Chair, the Executive Liaison will assume the chair and may represent their committee to Presidents' Council.

### Committee Members

Members are expected to share informed local perspectives with their committees and, in turn, keep their local executives informed of committee work, discussions and decisions. Members are representatives of their locals in any committee decision-making processes. They are therefore advised to seek necessary guidance from their locals.

### Staff Representatives and Support Staff

Under the direction of the President, staff support the needs and work of committees.

## **VI. PROCEDURES: PURCHASING & EXPENDITURES**

### **1. GENERAL POLICY**

#### **1.1. PURCHASE OF SUPPLIES**

The purchase of general office supplies and materials consumed in ordinary business is done by arrangement with designated suppliers selected for price advantage. Advance purchase at sales and through discounts is preferred over “immediate need” buying. Arrangements for small quantities are made with an accessible seller close to the office. Unionized suppliers are preferred over non-unionized suppliers.

FPSE supports wherever possible sustainable purchase policies and practices that result in a significant reduction of waste products.

#### **1.2. SERVICE CONTRACTS**

Canvassed on comparative price policy with an annual review. Hotel, car rental, legal services, equipment maintenance, meeting meal service, etc., are all subject to this policy. Preference is given to stable suppliers who can meet a defined standard of service. Preference is given to unionized services over non-union.

Some guidelines:

- (a) Hotel: medium grade hotel, unionized premises if possible. Arrangements exist for preferred corporate or government rates.
- (b) Air travel: economy rate; advance purchase or other concession rates if available and requiring no additional layover time. Travel arrangements may be made by administrative assistants or by the traveler. The President, Secretary-Treasurer and staff are required to use a unionized travel agent. All locals and committees are strongly encouraged to purchase “advance” tickets for scheduled meetings and events.
- (c) Car: compact or sub-compact (except where there are multiple passengers, or the vehicle is used for transport of materials such as at convention time).
- (d) Legal services: cost is the first consideration and familiarity with the post-secondary system is preferred. Annual contract reviewed by Executive Committee.
- (e) Meal service: catering service used for “in-house” meetings if substantial savings result over hotel catering or restaurant prices.
- (f) Equipment maintenance: price advantage plus familiarity with office needs.
- (g) Layout and printing: union label, price and ability to meet needs in short turn-around-time. Publicly distributed materials require a “union bug”.

#### **1.3. OFFICE EQUIPMENT & FURNITURE**

At least three alternative sources are canvassed for suitability and price advantage.

## **2. EXPENDITURE POLICY – BUDGET ADMINISTRATION**

### **2.1. STAFF EXPENSE REIMBURSEMENT**

As per collective agreement; includes some items not found on ordinary event/member expense claim forms:

- fixed rate on car mileage/km use to compensate for frequency of car use;
- insurance compensation after 450 km as per collective agreement.

Expenditures are monitored carefully. Travel must be done by least expensive means available except where time differential leads to compensating time off or overtime. If car use is preferred, reimbursement is available only up to the economy air travel rate when flying the most direct route.

Hosting is only by previous arrangement except where the Staff Representative pays for meals of witnesses or participants in hearings.

Locals are required to pay for their own expenses in the course of negotiations or observing hearings.

### **2.2. PRESIDENT (OR ACTING) AND SECRETARY-TREASURER EXPENSES**

Same entitlements as staff, except for a discretionary hosting component.

### **2.3. GENERAL MEMBER EXPENSES**

As set out in the claims form (see Policy on Travel Expense Claims). Reviewed annually by the Executive Committee.

### **2.4. SOME GENERAL PRINCIPLES**

- (a) Sharing may be requested where possible for vehicle rental or reimbursement for individual car use where two or more travel to a FPSE event or meeting.
- (b) There is no requirement to room-share.
- (c) Where a meal is provided, no meal expense claim is allowed.
- (d) Frequent flyer or other bonus points are retained by the program member. Enrollment fees are not reimbursed by FPSE.
- (e) Substitution of hotel accommodation is discouraged, but where necessary is only up to the selected "hotel partner" rate.
- (f) Substitution of car rental for taxi is only up to the estimated reimbursement amount for taxi use (\$60.00 limit).
- (g) No mileage/km may be claimed where a rental vehicle is used.

### **2.5. STAFF SALARY PAYMENT**

This is strictly governed by the collective agreement.

## **2.6. STAFF SCHEDULING, ASSIGNMENT AND OVERTIME (COST ASPECTS)**

This is the responsibility of the President and subject to the collective agreement. All services are subject to allocation on a balanced and planned basis by the President in consultation with the staff. The President's decision is final, subject to review by Executive Committee or Presidents' Council.

## **2.7. STAFF OVERTIME AND SERVICES PROVIDED TO MEMBER LOCALS**

These are authorized by the President. Commitments are open-ended where negotiations, hearings or other protracted services are involved, but subject to weekly review. Appropriate forms for reporting and tracking exist.

## **2.8. LEAVE OF ABSENCE SCHEDULING**

As provided for in the collective agreement and authorized by the President.

## **2.9. PRESIDENT/SECRETARY-TREASURER SALARY AND BENEFITS**

### **SALARY AND BENEFITS**

At the option of the recipient (but no greater than the amount of gross salary, benefits and statutory payments the individual would ordinarily receive had he/she worked at the home institution), the following payment arrangements may be made:

- (a) institution maintains salary payment and invoices FPSE; or
- (b) institution maintains salary payment and invoices local union, which then invoices FPSE.

Salary payments may only be made monthly (i.e., no "lump sum").

FPSE full-time officers shall be compensated for benefits they are entitled to but cannot use because of their work responsibilities at a rate of two months of salary and benefits per year of service, to be either paid out or used as release time at the end of such service, according to their choice.

### **EXIT/TRANSITION PROFESSIONAL DEVELOPMENT**

"Exit" Professional Development is available for the President and Secretary-Treasurer, to be taken after the end of their terms. PD time will be as follows:

- one-year term: no PD time;
- two years: one quarter release time for first term back on active duty;
- three or more years: one quarter release time for the first and second semester back on active duty.

### **VACATION**

Vacation time shall be consistent with the officer's home local collective agreement.

## **2.10. PRESIDENT/SECRETARY-TREASURER SCHEDULING AND ASSIGNMENTS**

At the discretion of the two officers. However, the annual schedule of FPSE activities strictly limits the vacation and time off scheduling of the President and Secretary-Treasurer. There

are no maximums or minimums for duty time and no overtime or compensating time off provisions. Pay for "time not worked" benefits are not available except for the statutory holidays and vacation time taken.

Subject to Executive Committee and Presidents' Council review and direction.

## **2.11. EXECUTIVE COMMITTEE MEMBER RELEASE TIME**

2.11.1. FPSE will provide 1/8 release time for each Member-at-Large. *(PC 2009)*

2.11.2. A pool of money shall be set aside for the purchase of release time for other members of the Executive Committee. This pool can be utilized for work assigned by the President.

## **2.12. PENSION PLAN TRUSTEE RELEASE TIME AND EXPENDITURE**

2.12.1. FPSE will annually budget for the purchase of three-eighths of an FTE release time for each of its members serving as trustees. *(2016, 2018)*

2.12.2. For its members serving as trustees, FPSE will purchase further one-eighth FTE releases for each subsequent appointment as a Board Chair or Vice-Chair or appointment to a BC pension-related board or body.

2.12.3. Any stipends or per diems such trustees would receive are payable to FPSE.

2.12.4. Unless covered by the body or board concerned, pension trustee expenses are covered by the FPSE expense policy.

## **2.13. MEETINGS AND CONFERENCE ATTENDANCE**

Except for staff professional development, meetings and conferences are governed by the following criteria:

- (a) must serve a specific policy or servicing purpose;
- (b) must be authorized by the President when it is a staff member or representative;
- (c) must be "routine" if taken by the President or in order to implement a specific policy – non-routine or special conferences are approved by the Executive Committee, in advance where possible;
- (d) must be followed up with a brief report.

## **2.14. REFRESHMENTS**

Free beverages and light snacks are provided at all FPSE meetings. Free coffee and tea are provided during normal work times for office personnel and visitors.

### 3. POLICY ON TRAVEL EXPENSE CLAIMS

### 3.4. DONATIONS POLICY

## 4. FPSE ORGANIZING EXPENDITURES

### Terms of Reference for Accessing Organizing Resources

#### Overview

FPSE is pleased to support the organizing of non-union post-secondary educators in both the private and public sectors in BC. This pursuit brings collective agreements to a sector that has notoriously exploited teachers for decades. It also brings decent pay, benefits, class size and grievance procedures, as well as connections to other post-secondary educators and the broader labour movement.

#### Procedures

Requests for Organizing Resources shall be made to the Executive Finance Sub-Committee and follow any protocol it requests, such as the instructions in the document, "Organizing Reimbursement and Invoicing."

A Staff Representative will normally be present when the Executive Finance Sub-Committee considers applications for organizing funds. The Staff Representative will have voice but no vote.

As part of the annual budgeting process, the Executive Finance Sub-Committee shall make a recommendation to Presidents' Council in March each year to set an appropriate budget line for FPSE organizing activities.

Activities and costs that may be supported include, but are not limited to, the following:

- Website & marketing
- Meetings & socials
- Travel & meals, as per current Expense Claim policies and procedures
- Promotional merchandise
- A request for release time may be considered. It requires a detailed rationale and costing

#### Process for Approval

Request for approval of projects and activities will be directed to the Secretary-Treasurer of FPSE, who will then send the request to the Executive Finance Sub-Committee.

Requests may come from any Local president or member of the FPSE Executive, from the Chair of Local 21's Organizing Committee, or from a Staff Representative, in the event a target is identified from outside an FPSE Local. In the latter case, the Executive Finance Sub-Committee will make a recommendation to Presidents' Council regarding appropriate placement of a new certification into either an existing FPSE Local or a newly created FPSE Local.

The Executive Finance Sub-Committee shall evaluate an application for funds based on the following criteria, as applicable:

- Target identified (name of institution, location, etc.)
- Number of potential new members
- Whether or not inside contact(s) have been identified and their ability to recruit others
- Financial viability for supporting the target as a new certification
- Sustainability of employer funding (i.e., private sector employer's ongoing viability)
- Capacity of employer to fight the organizing drive (and resources needed to respond)
- Likelihood of being able to successfully negotiate a first collective agreement

- Previous organizing attempts, if any, and reasons for failure of those attempts
- Proposed budget, including intended use of funds
- Political considerations for FPSE
- Other criteria as deemed relevant by the Organizing Sub-Committee

Normally, a request addressing these criteria, as applicable, must be submitted to the Executive Finance Sub-Committee prior to the disbursement of funds. However, exceptions may be made where the organizing circumstances necessitate immediate disbursement of funds. In such cases, the Executive Finance Sub-Committee will make a reasonable effort to consult with the applicable Staff Representative prior to the disbursement of funds.

If there are questions of clarification, the Secretary-Treasurer will seek answers, relay them to the members of the Executive Finance Sub-Committee, and request approval. This will be done in as timely a manner as possible.

Once the Executive Finance Sub-Committee has made a decision, the Secretary-Treasurer shall inform the applicant and the Staff Accountant, who will file the approval and check it against invoices that come in after the activity has occurred. In some cases, FPSE may forward an advance for an approved activity/event.

The Staff Accountant will provide detailed instructions and assistance in preparing invoices for reimbursement. In accounting for organizing expenditures, the Staff Accountant will include, as a separate line item, the legal costs associated with organizing, such as applications filed at the Labour Relations Board and any other matter identified by a Staff Representative.

*(2014, 2017)*

## VIII. FPSE POLICY

### FPSE VALUES STATEMENT

FPSE adopts the following “Values Statement” for the purpose of guiding policy initiatives and reviews:

#### Preamble

The men and women who work in colleges, institutes, and universities play a unique role in British Columbia’s post-secondary education system. While recognizing that education now takes place in a global context, the institutions are also deeply rooted in their individual communities. Since its inception, the system has provided access to post-secondary education for large numbers of adults who had previously been barred from access for geographic, economic, social or psychological reasons. The over 10,000 members of the Federation of Post-Secondary Educators support the following values as desirable elements of post-secondary education in British Columbia.

#### Education is of significant social and personal value.

We believe education is valuable for the role it plays in the development of people’s lives. This role includes the development of a critical approach to ideas and the political, social, economic and intellectual empowerment of learners. Education is necessary for personal fulfillment, for the development of skills and capacities permitting employment, and the development of active citizenship. Education should help people to take responsibility for the world they live in as active agents – not as objects.

#### Respect between educators and learners is essential to quality education.

Educational programs must be developed to meet the needs of the learner while respecting the learner’s perspective. Respect for the adult learner means valuing the knowledge they bring regardless of whether or not that knowledge was gained in formal educational settings. Respect for learners must also acknowledge differences in learning styles and in life experiences. Educators, in turn, should be respected for their knowledge of their subjects, their teaching excellence, their commitment to ongoing professional development, and their communication and interpersonal skills.

#### Public education is an important social good and investment.

We believe that post-secondary education must serve its community and meet public needs. This can only be accomplished by a publicly funded and administered education system focused on public priorities rather than profit.

#### Public education is a right and plays a valuable role in supporting a democratic society.

An affordable, quality public education must be a right in a civil society. In turn, education supports society by creating an informed citizenry and by reducing economic disparity.

#### Academic freedom and the open discussion of ideas are critically important in the supporting of a democratic society by public education.

The common good of society depends upon the search for knowledge and its free expression. Academic freedom is essential to both these purposes in the teaching function, as well as in scholarship and research. Academic freedom carries with it the duty to use that freedom in a manner consistent with the scholarly obligation to base teaching and research on an honest thirst for knowledge.

**British Columbia's public education system should support equity in terms of learners, educators and curriculum.**

People should be made to feel welcome and supported in all aspects of educational life regardless of race, colour, ancestry, place of origin, political belief, religion, marital status, family status, physical or mental disability, sex, sexual orientation, age, financial circumstances or geographic location. This equity must extend to both the learning and working environments.

**British Columbia's community-based colleges, institutes and universities must offer a broad and comprehensive range of learning opportunities.**

Geography should not bar access to programs in a general education or to upgrading programs for those who require them. Additional programs must be available to meet the needs of specific communities and groups.

**British Columbia's post-secondary institutions must be responsive to learners, to the communities they serve, to the people who work in those institutions, and to the public which funds them.**

Accountability within post-secondary education must be broadly based. This accountability can best be expressed in efforts to meet democratically developed goals for the post-secondary education system that are developed by learners, educational workers, communities and government.

**British Columbia's post-secondary system should strive for universal accessibility.**

We believe government and British Columbia's post-secondary system must eliminate barriers to accessibility and to transfers between public post-secondary institutions.

**Interaction between instructors and learners, and among learners, is essential for quality education.**

Education is a social process, and this must be acknowledged when using any form of delivery.

**Quality instruction and support is key to student success.**

We are dedicated to providing quality instruction and support for student success. We support changes in education that make learning for adults more meaningful and effective. Appropriate support services, including library and counselling services, are essential to student learning and success.

**The rights of people working in education must be respected.**

We advocate unionization and free collective bargaining as the best way to ensure the establishment and maintenance of fair and equitable working conditions for all persons employed in British Columbia's post-secondary education system.

**Ongoing professional development is a member right and an institutional and member responsibility.**

We are committed to continued enhancement in our areas of expertise and our instructional and professional approaches. Post-secondary institutions should be communities that actively support the ongoing professional development of their members.

**Scholarly activity is integral to effective learning.**

We are committed to scholarly practices that result in more effective student learning. We support a workplace environment that allows faculty to engage in scholarly teaching, enquiry, discovery, integration, creativity, professional service, and application.

1.3.4. FPSE HARASSMENT POLICY

FPSE adopts the following harassment policy, to be read at the commencement of all FPSE conferences, conventions, and the Annual General Meeting:

FPSE upholds the principles outlined in the FPSE Constitution and further upholds the rights of members to participate fully in the functions of the organization in an atmosphere of mutual respect, cooperation and understanding.

FPSE therefore upholds the rights of all members to mutual respect, dignity, and freedom from discrimination and harassment of any kind during all FPSE functions.

Any conduct that undermines these rights also undermines the purposes and goals of our organization.

It is the policy of the Federation of Post-Secondary Educators to oppose any disrespectful personal conduct, discrimination or harassment on the basis of sex, age, race, colour, religious affiliation, national or ethnic origin, sexual orientation, physical disability, political belief, marital or family status, or socio-economic circumstance.

The purpose of this statement is to make it clear that discrimination, harassment or disrespectful conduct will not be tolerated at FPSE events. Behaviour that undermines the dignity or self-esteem of any individual or creates an intimidating, hostile or offensive environment will not be condoned or tolerated.

Harassment may include comments or conduct that is known or ought reasonably to be known to be unwelcome. It is the reasonably foreseeable impact of the comment or action on the victim, and not the intent of the person making the comment or taking the action, that matters. One incident or a series of incidents may constitute harassment.

If you experience harassment or discrimination, please raise your concern through the following process:

Contact the ombudspersons – one male, one female – appointed by the President for the duration of the event. You can contact them by leaving a message for the ombudspersons with any FPSE support staff or by contacting the persons directly.

The ombudspersons will investigate and try to resolve the problem. They may take whatever action is required to correct the situation, including asking that the harasser be removed from the event.

Confidentiality will be respected throughout the process.

(2001)

## 1.3.5. FPSE-SPONSORED EVENTS POLICY

If FPSE is indirectly sponsoring an event, a Local contact person will consult with the host FPSE Local's executive about any event taking place at that Local's campus(es). If the event includes off-campus activities in coordination with another union or community group, the Local contact person will inform the host FPSE Local's Executive of the planned activities.

If FPSE is directly sponsoring an event, in addition to the above, the Local Executive will consult with the FPSE President or designate about any planned event that will be funded wholly or partially by FPSE.

If FPSE's name is to be used on any promotional materials, the use of FPSE's name must be approved by the FPSE President or designate.

1.4.2. The FPSE Defence Fund shall be managed under the following guideline:  
The budgeted Defence Fund transfer shall be 5% of regular members' dues. *(1998, 2013, 2017)*

1.4.3. FPSE shall allocate 5% of the annual operating budget to a contingency line item in the operating budget. The contingency budget line will be used for AGM motions with financial implications to the operating budget. - 1.4.7. FPSE dues shall be set as a percentage of the gross income of faculty and staff represented by FPSE. (1987)
- 1.4.8. The Presidents' Council shall approve an interim budget at its last meeting of the prior fiscal year. This interim budget will guide FPSE expenditures until approval of the formal budget at the Annual General Meeting. (1987)
- 1.4.9. Annual budgets for Standing Committees must be based on the costs of carrying out specified activities; however, a committee's activities may be changed – within the limits of its annual budget – with the approval of the Executive Committee. (1987)
- 1.4.10. Where budget lines are to be changed, they shall be changed with the approval of the Presidents' Council. (1986)
- 1.4.11. The utilization of surplus shall be explicitly built in to the proposed budget presented to any Annual General Meeting. (1986)

## **1.5. COMPENSATION / RELEASE TIME**

- 1.5.1. FPSE shall subsidize release time expenses related to attendance at bargaining up to 50% for those locals with under one hundred members. Where the local is unable to contribute to the costs of a member attending provincial bargaining, FPSE will provide a quarter release time. (2004)
- 1.5.2. FPSE full-time officers shall be compensated for benefits they are entitled to but cannot use because of their work responsibilities at a rate of two months of salary and benefits per year of service, to be either paid out or used as release time at the end of such service, according to their choice. (2003)
- 1.5.3. FPSE appointees who receive stipends or *per diems* must revert them to FPSE to pay for release time and any other expenses incurred. (2000)
- 1.5.4. Guidelines for compensation for members of locals who perform exceptional FPSE activities are as follows:
  - (a) The Executive is authorized to provide compensation in the form of payment for release time, for substitution, or by way of honorarium or stipend through a member local, where a member of the local has been authorized to engage in exceptional FPSE activities.
  - (b) Activities which may be designated as appropriate for compensation shall have a provincial purpose
  - (c) The Executive, on its own initiative or a request from the president of a local, shall review each case to determine the appropriateness of the activity, the appropriate form of compensation, and the amount to be expended on the compensation

Persons compensated under this policy shall be accountable to the FPSE President and the Executive Committee. The President and Executive shall provide a summary report to the Annual General Meeting on all work performed under this policy.

*(1996)*

- 1.5.5. Remuneration for the positions of Past President, Vice-Presidents, and Members-at-Large shall be paid either through release time or, if it is not feasible for the individual to accommodate such release time, through an equivalent cash stipend to the local.

## **1.6. DEFENCE FUND INVESTMENT POLICY**

### **Section 1: Purpose**

- 1.1. This statement of investment policy ("the Policy") applies to the assets held in the Defence Fund (the "Fund") for members of the Federation of Post-Secondary Educators ("FPSE"), pursuant to sections 3.8, 13.5, and 13.6 of the FPSE Constitution.
- 1.2. This policy establishes investment principles and guidelines giving particular consideration to the nature and purpose of the Defence Fund, its characteristics and its financial obligations, and to define the management structure and monitoring procedures adopted for ongoing operation of the Fund.
- 1.3. This policy may be changed or modified at any time by FPSE's Presidents' Council, with such changes to be presented to the next Annual General Meeting for disposition. Any investment manager (the "Manager" or "Fund Manager") or other agent or advisor providing services in connection with the investment of the Fund shall accept and adhere to this policy.

Reporting: Investment reports shall include a detailed schedule of investments, as well as the portfolio value and performance information. The audited financial statements shall include a summary of year-to-year changes, investment income and contributions, and deductions (if any).

The audited financial statements shall include a summary of, and the investment reports shall include a detailed schedule of investments, showing the amounts of holdings, costs and market value.

### **Section 2: Executive Responsibilities**

- 2.1. Presidents' Council has the ultimate responsibility for the prudent investment of the Fund. Presidents' Council is responsible for all aspects of the Fund, including developing an investment policy, establishing and maintaining an investment manager structure, and monitoring investment results.
- 2.2. Presidents' Council may delegate their responsibilities under this policy as they deem appropriate.
- 2.3. Presidents' Council may adopt regulations which establish the delegated responsibilities and powers and the corresponding delegate (e.g., investment manager, investment committee). In the case of delegation regarding any aspect of this policy, the reference to Presidents' Council herein shall be interpreted as a reference to the appropriate delegate.

### Section 3: Nature of the Fund

- 3.1. FPSE shall establish and maintain a Defence Fund to support regular members and participating associate members engaged in strike, lockout or picket line recognition or for such other action in defence of FPSE as is approved by Presidents' Council.
- 3.2. The investment objectives for the Fund recognize the potential need for disbursement and periodic need for liquidity.

### Section 4: Fund Objectives

- 4.1. The ability of the membership to withstand a work stoppage is directly related to the return achieved by the Fund and the accumulation of contributions.
- 4.2. To fulfill FPSE's objectives over the long term, the Fund should achieve over a rolling five-year average total rate of return as follows:
  - (a) a net (after deduction of investment management fees) return of annual CPI (Canada), plus 2.0% per annum; and
  - (b) a net (after deduction of investment management fees) return of 4% per annum.

### Section 5: Permitted Categories of Investment

- 5.1. Subject to other provisions of this policy, the Fund may be invested in any or all of the following asset categories and subcategories of investments. These investments may be obligations or securities of Canadian entities:
  - (a) common stocks, convertible debentures or preferred securities;
  - (b) bonds, debentures, mortgages, notes or other debt instruments of governments, government agencies or corporations;
  - (c) guaranteed investment contracts or equivalent of insurance companies, trust companies, banks or other eligible issuers, or funds which invest primarily in such instruments;
  - (d) annuities, deposit administration contracts or other similar instruments regulated by the Canadian and British *Insurance Companies Act* (Canada) or comparable provincial law, as amended from time to time;
  - (e) term deposits or similar instruments issued or unconditionally guaranteed by trust companies or banks;
  - (f) cash, or money market securities issued by governments, government agencies or corporations;
  - (g) mutual, pooled or segregated funds which may invest in any or all of the above instruments or assets.
- 5.2. Unless specifically approved elsewhere in this policy, the Fund may not be invested in categories of assets excluded from Section 5.1, including but not limited to investment in commodities, precious metals or collectibles.
- 5.3. No investment shall be made which is not permitted by relevant provincial or federal legislation.

#### 5.4. Exclusionary Screens

##### (a) MILITARY

For the purposes of FPSE's Defence Fund investment portfolio, companies will be ruled ineligible if they derive 5% or greater of revenues from weapons-related contracting or consulting, including the manufacture of (i) air, land or sea military vehicles; (ii) rifles, missiles, bombs, or other explosive devices; (iii) ammunition; (iv) technology, such as 'smart' weapons or guidance systems; or (v) nuclear weapons or components for nuclear weapons systems.

##### (b) NUCLEAR POWER

FPSE's Defence Fund investment portfolio will not include companies that

- generate electricity from nuclear fuels or have an interest in a nuclear power plant that is operating or under construction; or
- mine, process or enrich uranium, or are otherwise involved in the nuclear fuel cycle.

##### (c) TOBACCO

FPSE's Defence Fund investment portfolio will not include companies that derive revenues from the production of tobacco products or whose involvement in activities closely associated with the production of tobacco products represents 5% or greater of annual revenues.

Tobacco products include cigarettes, cigars, pipes, chewing tobacco, snuff, and cigarette and pipe tobacco. Related activities include (but are not limited to) the manufacture of rolling papers, filters and packaging. Companies involved in the distribution and sale of tobacco and tobacco-related products remain eligible for the Fund.

##### (d) QUALITATIVE SCREENS

FPSE's Defence Fund investment portfolio's qualitative screens (products, business practices, international/human rights, environment, employee relations, diversity and community) exclude companies whose record on balance are negative in these areas. Accordingly, problems in one of these areas do not necessarily eliminate a company from eligibility. This analysis incorporates the best-of-sector approach, whereby a company's record is measured against those of its industry counterparts. The screen also seeks to include companies whose records in diversity and employee relations are positive.

##### (e) PRODUCTS

Within the context of its overall structure, FPSE's Defence Fund investment portfolio does not include companies that manufacture products that cause (or allegedly cause) permanent impairment, life-threatening or non-life-threatening injuries or illness.

##### (f) BUSINESS PRACTICES

FPSE's Defence Fund investment portfolio does not include companies:

- that have paid recent fines/penalties as a result of questionable marketing or production practices; or
- that have paid recent fines/penalties relating to price fixing, antitrust violations or consumer frauds.

(g) INTERNATIONAL OPERATIONS/HUMAN RIGHTS

In evaluating eligibility for investment, an analysis is done on the company's international operations based on its own merits. Implicit in this company-specific approach to international/human rights analysis is the realization that investment in less developed economies can have either a positive or negative impact on the citizens of the host country. Investment can provide jobs and raise the standard of living in these countries, but it can also cause significant social and environmental damage. Accordingly, FPSE's Defence Fund investment portfolio does not include companies:

- whose operations in less developed countries have been the subject of significant controversies related to treatment of employees, degradation of the environment or relationships with indigenous peoples; or
- whose major suppliers have been cited for mistreating employees or using child or prison labour; or
- that operate in countries with repressive regimes.

(h) ENVIRONMENT

In measuring eligibility for FPSE's Defence Fund investment portfolio, a company's environmental performance record is measured on balance against those of its industry counterparts. Therefore, within this best-of-sector framework (and within the context of its overall performance), companies are not included that:

- have poor environmental compliance records, including a history of fines or civil penalties as a result of transgressing federal or provincial environmental legislation; or
- have recently been involved in major controversies with local environmental or community organizations involving some form of environmental degradation; or
- manufacture or emit significant amounts of ozone-depleting chemicals or give rise to emissions that contribute significantly to global warming or the formation of acid rain; and
- have no corresponding strengths in these areas.

(i) EMPLOYEE RELATIONS

In measuring eligibility for FPSE's Defence Fund investment portfolio, a company's employee relations performance is measured on balance against those of its industry counterparts. Therefore, within this best-of-sector framework (and within the context of its overall performance) those not included are companies:

- with poor health and safety records; or
- with records of violations, convictions or fines for unfair labour practices, and/or significant number of work stoppages; or
- that do not provide a level of benefits to their employees that is comparable to industry counterparts (including share ownership opportunities, profit-sharing programs or other participatory initiatives).

In determining eligibility for investment, FPSE also seeks to include companies that demonstrate a strong commitment to progressive employee relations, especially when compared to industry counterparts.

(j) DIVERSITY

A company is excluded from eligibility for FPSE's Defence Fund investment portfolio under the following conditions:

- it has no employment equity policy or programs in place to encourage the hiring and promotion of disadvantaged groups; and

- there are no women within the ranks of senior management, and it has 1,000 or more employees; or
- it does not include gay and lesbian employees in its employee benefit plans; or
- it recently has been involved in major controversies involving its hiring and promotion record.

In determining eligibility for investment, FPSE also seeks to include companies that demonstrate a strong commitment to diversity in the workplace, especially when compared to industry counterparts.

- (k) A company is excluded from eligibility for FPSE's Defence Fund investment portfolio under the following conditions:
- it has paid fines or civil penalties, or has been involved in a major controversy, related to a community in which it operates; or
  - its relations with a community in which it operates have become strained due to recent plant closings or a general breach of its agreements with the community; or
  - it recently has been involved in a major controversy with aboriginal peoples and communities.

## Section 6: Degree of Risk and Diversification

- 6.1. The investment objectives for the Fund have been reviewed with regard to the risk tolerance of Presidents' Council and characteristics of the Fund. The primary observations are:
- (a) The Defence Fund has been in existence since 1986 and it has been drawn on several times during work stoppages, none of which were system-wide. The future likelihood of further strikes or lockouts cannot be predicted, but AGMs have regularly authorized expenditures from the Defence Fund for system bargaining, or campaigns in defence of the post-secondary education system.
  - (b) In the event of a work stoppage it is likely that a substantial portion of the Fund will be dispersed to members. During windows of collective bargaining, it is important to consider liquidity.
- 6.2. In view of the purpose of the Fund and its current financial position, an average degree of risk in terms of short-term variability of returns, relative to a broad range of Canadian funds, will be accepted in the Fund's investments in pursuit of long-term returns.
- 6.3. Risk of price fluctuations within the asset classes and the uncertainty of future economic and investment conditions dictate prudent diversification through investment in asset classes whose expected return correlations provide overall risk reduction for the Fund.

**Section 7: Asset Allocation Guidelines**

- 7.1. In view of the foregoing considerations, the allocation of assets between fixed income and equity securities shall be maintained within the following structure, exclusive of the occurrence of a strike or lockout:

Asset Class	Range	Neutral Allocation
Cash and equivalents	0%-20%	10%
Fixed income	40%-80%	60%
Common equities*	0%-50%	30%

*\* In times when significant withdrawals are anticipated, cash and equivalents may rise to 100%.*

- 7.2. Within each asset class, there will be a prudent level of diversification subject to the following limits, based on market value. Foreign content for equities and bonds will be capped at 40% of the total value of the portfolio.
- 7.3. Equities: In respect of the total content of the Fund:
- (a) Not more than 10% shall be invested in the common stock, preferred shares or equity issues of any one corporation.
  - (b) As regards total equity holdings:
    - (i) investments shall be diversified appropriately among industry groups with no industry representing more than 25% thereof in any case;
    - (ii) not more than 8% thereof shall be invested in small capitalization equities defined as having a total market capitalization less than \$200 million.
- 7.4. Fixed income (bonds): In respect of the total content of the Fund, the quality standards for bond investments shall be as follows:

Debt Rating	Maximum % of Total Portfolio
Lower than "A"	25%
"A" or higher	No limit

The above limits will be applied with some temporary latitude in the event of a down-rating of security.

- 7.5. Short Term Paper: Any short-term portion of the Fund (or of an equity or debt portfolio) shall be invested in readily liquidated securities with a term to maturity (or in the case of floating rate securities, to interest rate re-establishment) of not more than one year, or held in cash.
- 7.6. Investments may be made in the above asset classes directly, or holding units of pooled, segregated or mutual funds investing in one or more asset classes. Presidents' Council shall monitor, or cause to be monitored, the contents of the pooled fund portfolios for their degree of compliance with the foregoing expectations and may make or cause to be made such changes in their choice of pooled funds as are deemed appropriate to meet the objectives of this policy.

**Section 8: Valuation of Investments**

- 8.1. Investments in publicly traded securities shall be valued no less frequently than monthly at their market value.
- 8.2. Investments in pooled funds comprising publicly traded securities shall be valued according to the unit values published at least monthly by the pooled fund manager.

- 8.3. If a market valuation of the investment is not readily available, then a fair value shall be determined by the manager. For each such non-traded investment, an estimate of fair value shall be supplied to the Fund custodian not less frequently than quarterly. In all cases, the methodology should be consistently applied over time.

### **Section 9: Investment Manager / Advisor Structure**

- 9.1. Competent external professional investment manager(s) or advisor(s) shall be appointed by Presidents' Council, when satisfied as to their suitability and competence to act as agents for the Fund. Presidents' Council shall also make any manager changes, from time to time, as are deemed to be in the best interests of the Fund and the membership. To be considered for appointment, an investment manager should have a suitable investment approach, demonstrated financial stability, low turnover of personnel, capacity to undertake the account, performance record of at least two years, and relevant experience and expertise.
- 9.2. All of the foregoing is subject to compliance at all times with investment restrictions required by law.

### **Section 10: Conflicts of Interest**

- 10.1. A conflict of interest, whether actual or perceived, is defined for the purposes of this policy as any event in which a participating company, Presidents' Council, an employee of a participating company, any manager or delegate, the custodian or any party directly related to any of the foregoing, may benefit materially from knowledge of, participation in, or by virtue of, an investment decision on holding of the Fund.
- 10.2. Should a conflict of interest arise, the party in the actual or perceived conflict, or any person who becomes aware of a conflict of interest situation, shall immediately disclose the conflict to Presidents' Council. Any such party will thereafter abstain from decision making with respect to the area of conflict, and a written record of the conflict will be maintained by Presidents' Council.
- 10.3. No part of the Fund shall be loaned to any participating company, employee of a participating company or any Executive member, or any legal person owned or controlled by any of the aforementioned.
- 10.4. Presidents' Council shall satisfy themselves that appropriate policy regarding conflicts of interest exists and is followed by any manager appointed by Presidents' Council.

### **Section 11: Monitoring**

- 11.1. Presidents' Council shall be prepared to meet at least semi-annually to:
- (a) review the assets and net cash flow of the Fund;
  - (b) review the current economic outlook and investment plans of the manager;
  - (c) review the current asset mix of the Fund, and subject to Section 14, take any action necessary to ensure compliance with this policy; and
  - (d) receive and consider statistics on the investment performance of the Fund.

- 11.2. Presidents' Council shall monitor the performance of each manager. Such monitoring shall include, but not be limited to, semi-annual meetings and ongoing evaluation of performance relative to standards appropriate to the manager's mandate.

#### Section 12: Loans and Borrowing

- 12.1. No part of the Fund shall be loaned to any person, partnership or association as stated in Section 10.3 except as may be deemed permissible by Presidents' Council as described in Section 5.
- 12.2. Neither Presidents' Council nor the manager may pledge, hypothecate, or otherwise encumber, in any way, the assets of the Fund, except to the extent that temporary overdrafts occur in the normal course of business.
- 12.3. Presidents' Council shall not borrow on behalf of the Fund except to a limited and temporary extent for the timely payment of Fund benefits or administrative costs.

#### Section 13: Voting Rights

- 13.1. The responsibility for exercising and directing voting rights acquired through Fund investments shall normally be delegated to the manager, who shall at all times act prudently and in the best interest of the Fund and its beneficiaries.
- 13.2. Presidents' Council reserves the right to direct, or override, the voting decision of the manager, if in its view such action is in the best interest of the Fund and its beneficiaries. If they intend to do so, they shall inform the manager in writing within a reasonable period of time.
- 13.3. It is recognized that the above constraints and policy on voting rights are not enforceable to the extent that the Fund is invested in pooled funds.

#### Section 14: Policy Review

- 14.1. This policy shall be reviewed by Presidents' Council at least annually, but otherwise whenever a major change is necessary. Such review may be caused by:
- (a) a significant depletion of the Fund through a work stoppage;
  - (b) significant revisions to the expected long-term trade-off between risk and reward on key asset classes, normally dependent upon basic economic/political/social factors;
  - (c) shortcomings of the policy that emerge in its practical application or substantive modifications that are recommended to Presidents' Council by the manager.
- (2002, 2010 PC)*

### 1.7. FEE-FOR-SERVICE ARRANGEMENTS

FPSE shall not undertake any fee-for-service arrangements with outside organizations which under ordinary circumstances would be eligible for membership in FPSE. *(1989)*

## 1.8. LABOUR DISPUTES: STRIKES, LOCKOUTS, WORK STOPPAGES

Whenever a member organization is involved in a dispute:

- (a) FPSE member organizations will ask their members to pass a resolution giving full and unconditional support for the member organization involved in the dispute and for the students denied access to post-secondary education by the dispute.
- (b) FPSE will give financial support under the terms of a central Defence Fund. *(See s. IV.3 Accessing FPSE Defence Fund)*
- (c) FPSE will notify boards of other BC post-secondary institutions that faculty in FPSE's member organizations will be instructed not to teach in any program that is transferred from an institution as a result of a protracted dispute.
- (d) FPSE will offer staff support to assist the member organization involved in the dispute. *(1985)*

### 1.8.1. SUPPORT STRATEGIES FOR MEMBER ORGANIZATIONS ON STRIKE

#### Public Statements of Support

A letter should be sent from each member organization to the institution board, Ministry of Advanced Education and the union, expressing support for the union in its attempts to attain a collective agreement. FPSE provincial office will inform each member organization of the need for such communications and will also send its own letter of support.

#### Liaison with Labour

FPSE provincial office should make contact at the provincial level with other labour organizations (including the BC Federation of Labour, Confederation of Canadian Unions, and the BC Teachers' Federation) in order to inform them of the dispute situation and to enlist their support if possible.

#### Financial Assistance

Member organizations should have access to financial support from FPSE in the case of a protracted dispute, subject to policies governing the Defence Fund.

#### Coordination Role

FPSE provincial office will serve a coordinating role with both the media and other unions (including our own members). FPSE will, however, provide on-site assistance where requested, subject to the availability of resources and personnel.

#### Legislative Lobby

In the event that such strikes/lockouts are likely to elicit government involvement, FPSE will lobby in order to ensure that the interests of our member organizations are considered. *(1983)*

## 1.9. LISTSERVE POLICY

### PURPOSE OF LISTSERVES

FPSE, through its various listserves (Presidents' Council and committees), facilitates discussion of topics of interest to its members and facilitates communication between members and FPSE officers and staff. Listserve participants share information about what is happening locally, provincially, nationally and internationally. Listserve participants also participate in developing strategies to deal with issues of concern.

#### LIST MANAGEMENT

Participation in these lists is open to members of FPSE as designated by locals and others appointed by the FPSE President and Executive. The lists are monitored but not moderated. Any messages inappropriate for general distribution should not be posted

Participants should be aware that any messages posted or replies to messages posted automatically are distributed to all those on the list. Anyone wishing to communicate to individuals on the list is encouraged to send a private message.

Any discussion that takes place on the listserves should be of a professional nature. Messages are to be written in a way that maintains and demonstrates respect for others. Any participants who post material found to be defamatory or inappropriate will be warned of their inappropriate use of the lists and will be removed from the lists if the warning is not heeded.

#### SUBSCRIPTION

Subscription to the listserves is at no charge to the locals beyond local e-mail costs.

(2002)

### 1.10. OFFICERS' RELOCATION EXPENSE POLICY

FPSE expects its full-time officers to reside in the Vancouver area and work out of the FPSE offices. FPSE acknowledges that this expectation may require a full-time FPSE officer to temporarily relocate their place of residence to the Vancouver area. Our policy is to reimburse all reasonable costs related to this temporary relocation. Presidents' Council will include in the annual budget an amount for moving expenses and an amount for relocation allowance. Presidents' Council must approve any additional or unforeseen expenditures that may arise.

#### Officers' Moving Expenses

Moving expenses include the costs related to establishing the relocated temporary residence of an incoming full-time FPSE officer. Moving expenses also include the costs related to an outgoing full-time FPSE officer re-establishing their residence in BC but outside of the Vancouver area.

The budget amount approved is the estimated amount for one full-time FPSE officer move. There may be times when more than one officer moves in the same fiscal year. In that case the budgeted amount will increase to cover the cost of each move. For example, if the budgeted amount is \$4500, each officer will receive \$4500 to cover moving and related expenses.

All expenditures from this budget line must be reviewed and signed off by another full-time officer.

#### ELIGIBLE AMOUNTS

Moving expenses are not reimbursable unless the distance moved is greater than 40 kilometres. Outgoing full-time FPSE officers may make a claim only if they were eligible for an incoming claim, and that claim cannot exceed the inflation-adjusted amount of their incoming claim.

Moving expenses include, but are not limited to, those eligible under the *Income Tax Act*. Moving expenses also include those one-time type relocation expenses associated with establishing a new secondary place of residence.

The eligible moving expenses include costs related to relocating the spouse and immediate family of the full-time FPSE officer.

#### **Officers' Relocation Allowance Guidelines**

The Officers' Relocation Allowance is intended to cover expenditures of an ongoing nature for a full-time FPSE officer. Since a full-time FPSE officer's tenure is unpredictable, there should be no financial penalty or benefit from leaving their previous residence area.

The claiming full-time FPSE officer must take all reasonable steps to keep these costs to a minimum. All expenditures from this budget line must be reviewed and signed off by another full-time FPSE officer.

#### **PROCESS**

The claiming full-time FPSE officer will prepare an estimate of ongoing monthly or annual costs for review prior to incurring the costs. Another full-time FPSE officer will review the estimate. If the estimate exceeds the budgeted amount, the approval of Presidents' Council is required for the excess before the excess may be paid.

#### **ELIGIBLE AMOUNTS**

Eligible amounts for consideration in determining the relocation allowance are ongoing by nature. These costs or savings involve daily living expenses and the capacity to return once the term as a full-time FPSE officer is complete. Examples of such amounts include but are not limited to:

- storage of personal property not to be moved;
- the net after-tax housing cost differential (after deducting any rent revenue);
- cost of maintaining local banking relationships that cannot be transferred;
- mail redirection costs;
- changes in the cost of vehicle insurance;
- cost of maintaining inactive level memberships in community-based organizations.

#### **Outgoing Officer Cell Phone Guideline**

An officer transitioning out of a full-time position may keep the FPSE-provided cell phone for up to six months following the end of his/her term of office. An outgoing officer will also be permitted to retain the telephone numbers after the end of his/her terms.

## **1.11. OPERATING RESERVE INVESTMENT POLICY**

### **Purpose**

- 1.11.1. This policy applies to the assets held in the Operating Reserve for the Federation of Post-Secondary Educators.
- 1.11.2. This policy establishes investment principles and guidelines, giving particular consideration to the nature and purpose of the Operating Reserve, its characteristics and its financial obligations, and defining the management structure and monitoring procedures adopted for the ongoing operation of the fund.
- 1.11.3. This policy may be changed or modified at any time by FPSE's Presidents' Council, with such changes to be presented to the next Annual General Meeting for disposition. Any investment manager (the "manager" or "Operating Reserve manager") or other agent or advisor providing services in connection with the investment of the Operating Reserve shall accept and adhere to this policy.

- 1.11.4. Investment reports shall include a detailed schedule of investments, as well as the portfolio value and performance information. The audited financial statements shall include a summary of year-to-year changes, investment income and contributions, and deductions (if any).

- 1.11.6. Presidents' Council may delegate their responsibilities under this policy as they deem appropriate.
- 1.11.7. Presidents' Council may adopt regulations which establish the delegated responsibilities and powers and the corresponding delegate (e.g., investment manager or investment committee). In the case of delegation regarding any aspect of this policy, the reference to Presidents' Council herein shall be interpreted as a reference to the appropriate delegate.

#### Nature of the Fund

- 1.11.8. FPSE shall establish and maintain an Operating Reserve to support its day-to-day operations.
- 1.11.9. The investment objectives for the fund recognize the ongoing need for disbursement and liquidity.

#### Fund Objectives

- 1.11.10. The objective of the Operating Reserve is to preserve FPSE's accumulated surpluses that have not been transferred to the Defence Fund, to provide cash if needed, and to pay for wind-up costs should the organization end.

#### Permitted Categories of Investment

- 1.11.11. The Operating Reserve will use the same investment guidelines and exclusionary screens as the Investment Policy for the Defence Fund (Internal Policy 1.6 s. 5).

#### Degree of Risk and Diversification

- 1.11.12. The investment objectives for the fund have been reviewed with regard to the risk tolerance of Presidents' Council and characteristics of the Fund. As the goals of the Operating Reserve differ from those of the Defence Fund, the degree of risk and diversification may well differ from that of the Defence Fund.

- 1.11.13. Asset Allocation:

Asset Class	Range	Neutral Allocation
Cash and equivalents	5-30%*	10%
Fixed income	40-95%	65%
Common equities*	0%-30%	25%

*\*In times where significant withdrawals are anticipated, cash and equivalents may rise to 100%.*

### Valuation of Investments

- 1.11.14. Investments in publicly traded securities shall be valued no less frequently than quarterly at their market value.

### Investment Manager/Advisor Structure

- 1.11.15. Competent external professional investment manager(s) or advisor(s) shall be appointed by Presidents' Council, when satisfied as to their suitability and competence to act as agents for the Operating Reserve. Presidents' Council shall also make any manager changes, from time to time, as are deemed to be in the best interests of the fund and the membership. To be considered for appointment, an investment manager should have a suitable investment approach, demonstrated financial stability, low turnover of personnel, capacity to undertake the account, performance record of at least two years, and relevant experience and expertise.
- 1.11.16. All of the foregoing is subject to compliance at all times with investment restrictions required by law.

### Conflicts of Interest

- 1.11.17. A conflict of interest, whether actual or perceived, is defined for the purposes of this policy as any event in which a participating company, Presidents' Council, an employee of a participating company, any manager or delegate, the custodian or any party directly related to any of the foregoing, may benefit materially from knowledge of, participation in, or by virtue of, an investment decision on holdings of the Operating Reserve.
- 1.11.18. Should a conflict of interest arise, the party in the actual or perceived conflict, or any person who becomes aware of a conflict of interest situation, shall immediately disclose the conflict to Presidents' Council. Any such party will thereafter abstain from decision-making with respect to the area of conflict, and a written record of the conflict will be maintained by Presidents' Council.
- 1.11.19. No part of the Operating Reserve shall be loaned to any participating company, employee of a participating company or any Executive member, or any legal person owned or controlled by any of the aforementioned.
- 1.11.20. Presidents' Council shall satisfy themselves that appropriate policy regarding conflicts of interest exists and is followed by any manager appointed by Presidents' Council.

### Monitoring

- 1.11.21. At every Presidents' Council meeting, the following shall occur:
- (a) review of the assets and net cash flow of the fund;
  - (b) review of the current economic outlook and investment plans of the manager;
  - (c) review of the current asset mix of the fund; and
  - (d) receipt and consideration of statistics on the investment performance of the fund.

### Loans and Borrowing

- 1.11.22. No part of the Operating Reserve shall be loaned to any person, partnership or association as stated in Section 10.3 of the Investment Policy (Internal Policy 1.6), except as may be deemed permissible by Presidents' Council.
- 1.11.23. Neither Presidents' Council nor the manager may pledge, hypothecate, or otherwise encumber, in any way, the assets of the Operating Reserve, except to the extent that temporary overdrafts occur in the normal course of business.
- 1.11.24. Presidents' Council shall not borrow on behalf of the Operating Reserve except to a limited and temporary extent for the timely payment of benefits or administrative costs.

### Voting Rights

- 1.11.25. The responsibility for exercising and directing voting rights acquired through Operating Reserve investments shall normally be delegated to the manager, who shall at all times act prudently and in the best interest of the Operating Reserve and its beneficiaries.
- 1.11.26. Presidents' Council reserves the right to direct, or override, the voting decision of the manager, if in its view such action is in the best interest of the Operating Reserve and its beneficiaries. If they intend to do so, they shall inform the manager in writing within a reasonable period of time.
- 1.11.27. It is recognized that the above constraints and policy on voting rights are not enforceable to the extent that the Operating Reserve is invested in pooled funds.

### Policy Review

- 1.11.28. This policy shall be reviewed by Presidents' Council periodically, and otherwise whenever a major change is necessary. Such review may be caused by:
  - (a) a significant depletion of the Operating Reserve;
  - (b) significant revisions to the expected long-term trade-off between risk and reward on key asset classes, normally dependent upon basic economic, political and/or social factors;
  - (c) shortcomings of the policy that emerge in its practical application or substantive modifications that are recommended to Presidents' Council by the manager.

## **1.13. POLICY DEVELOPMENT**

### **1.13.1. Criteria for Updating or Archiving Policy**

#### **CRITERIA FOR ARCHIVING POLICY**

A policy should be archived if:

- it describes a one-time, finite action that has been completed;
- it describes an action dealing with a defunct organization;
- it directs FPSE to lobby for something that has been achieved or that is so dated as to be rendered moot;
- it describes an action that FPSE no longer undertakes;
- it describes an action or policy that has been subsumed by another broader policy;
- it describes a time-limited action that has been completed.

#### **CRITERIA FOR UPDATING POLICY**

A policy should be updated if:

- it describes a concept or principle that should be replaced with a more current term;
- it contains sound principles that should be revised in light of recent legislated or government policy-driven changes;
- something FPSE has done requires a change.

#### **CRITERIA FOR MAINTAINING POLICY**

A policy should be maintained if:

- it reflects principles that, while accomplished or achieved, provide an understanding of why things are done in a certain way;
- it continues to inform FPSE's activities;
- it reflects a sound principle, even if legislation has changed

*(2002, 2009 PC)*

- 1.13.2. The word "staff" in addition to "faculty" will be used in FPSE policy, and FPSE makes this recommendation to locals where appropriate in contract language.

(1994)

## 1.14. PRIVACY

### 1.14.1. FPSE Privacy Policy

#### COMMITMENT

The *Personal Information Protection Act* regulates the manner in which FPSE collects, uses, retains, secures and discloses personal information. FPSE recognizes the importance of privacy and the sensitivity of personal information received in the course of activities. The organization is committed to protecting the confidentiality of members' personal information and to inform members about procedures regarding the collection, use and disclosure of personal information provided to FPSE. For the purposes of this policy, members mean individual members of local associations or unions who are members of the Federation through membership in their local associations or unions.

#### PERSONAL INFORMATION

"Personal information" means any information about an identifiable individual and includes:

- home address and telephone number;
- age, marital status, sexual orientation, race, ethnic origin, religion;
- medical information;
- income;
- education; and
- employment information.

Personal information does not include "contact information", that is, the name, job title, business address, business telephone number, business email or business fax number of an individual.

#### FPSE COLLECTION OF PERSONAL INFORMATION

The mandate of FPSE involves:

- communicating with and determining the needs of our members;
- providing services and information to our members; and
- managing the business of the Federation.

In order to fulfill its mandate and objectives, the Federation may collect information that is relevant to the representation of our members' professional and employment interests. This information may, of necessity, include personal information about members and other individuals.

For example, FPSE may collect personal information about members who participate on committees, request contract administration services, register for conferences and conventions, or subscribe to FPSE publications, or to conduct research and surveys.

#### COLLECTION, USE AND DISCLOSURE OF PERSONAL INFORMATION

FPSE will only collect, use and disclose personal information for purposes that would be considered reasonable in the circumstances and only such information as is required for the purposes of fulfilling the mandate and objectives of the Federation.

Wherever possible, FPSE will collect personal information directly from the person to whom the information pertains. Sometimes it may be necessary to collect personal information from other sources, such as your local association or your employer.

If personal information is provided to an organization that performs services on FPSE's behalf, that organization will be required to use such information solely for the purposes of providing services to FPSE or the individual(s) concerned, and to have adequate safeguards for the protection of personal information.

FPSE will not sell personal information to any organization.

### **CONSENT**

Unless the purpose is obvious or consent is not required, before or at the time of collection, members will be informed of the intended purposes for the use or disclosure of personal information and will obtain consent. In most cases FPSE will obtain a member's express consent but in some cases that may be implied through the member's conduct.

Members may withdraw their consent to the collection, use, or disclosure of personal information, but withdrawing consent may limit FPSE's ability to represent members' interests.

### **ACCURACY, SECURITY AND RETENTION OF PERSONAL INFORMATION**

FPSE will make reasonable efforts to ensure that any personal information that is collected, used or disclosed is accurate and complete.

FPSE recognizes its obligations to protect the personal information in its custody and has implemented procedures to safeguard personal information against unauthorized access, use, or disclosure.

FPSE will keep personal information only as long as it is required. When personal information is no longer required, it will be destroyed in a secure manner.

### **FPSE WEBSITE**

Members do not have to provide personal information to visit FPSE's website. If members browse through the website, read pages or download information, the following information is automatically collected and stored:

- (a) the IP address of the computer from which the site is accessed;
- (b) the date and time of the visit; and
- (c) the pages visited.

This information is used for statistical purposes to help make the site more useful to visitors. This information does not identify individuals and is not correlated with any personal information.

From time to time FPSE may use non-persistent cookies within multiple page online forms to remember a visitor from page to page. These cookies do not store any personal information and are deleted at the end of the visit.

FPSE employs software programs to monitor network traffic to identify unauthorized attempts to upload or change information, or otherwise cause damage to the site. This software receives and records the IP address of the computer that has contacted FPSE's network, the date and time of the visit and the pages visited. No attempt is made to connect these IP addresses to the identity of individuals visiting the site unless an attempt to damage the site has been detected.

If personal information is provided through an e-mail message or form, the information will be retained only as long as needed to respond to questions or to fulfill the purpose of the communication.

The FPSE website contains links to other sites, which are not governed by this policy. (2006)

Arbitration awards involving member associations of FPSE may be used at FPSE-sponsored meetings, workshops or conferences for educational purposes. Notwithstanding that these awards are publicly available under the Labour Relations Code, FPSE commits itself to protecting the privacy of individual members of the association who are named in the award. To ensure anonymity FPSE shall delete the names of the individuals and any other identifying information, such as the name of their department, prior to circulating copies of the award at the meeting, workshop or conference. Every attempt will be made to contact individuals named prior to the use of the award.

This policy does not apply to the use of FPSE awards by its labour relations representatives as authorities in arbitration proceedings. (2006)

#### **1.15. REPRESENTATION FOR DISABILITY/WORKERS' COMPENSATION APPEALS**

1.15.1. Where a member's claim for Long Term Disability is denied by the LTD carrier, the member's local may request FPSE assistance for the member's appeal. The decision of whether to provide assistance will be made by the Grievance and Arbitration Review Committee, using the same criteria as is used by GARC in deciding whether to provide FPSE assistance to a local involved in a grievance or arbitration. (2000)

- (a) internal posting and hiring for all positions prior to consideration of any external applicants, and
  - (b) protection for non-regular faculty who apply for positions in regard to hiring qualifications by supporting the principle that employees who are non-regular and apply for the same or similar positions, who have received satisfactory evaluations, or in the absence of evaluation procedures have been found to be satisfactory, shall be deemed to be qualified for the position.

*(1993, 1992)*

### **3.6. PART-TIME POSITIONS**

FPSE accepts in principle that faculty and staff have the right to select and be hired in protected, permanent, proportional appointments, e.g., job sharing or pro-rated positions, as part of expanding job choices and affirmative action. FPSE recommends to the locals to adopt proportional appointments in principle and as a bargaining objective.

### **3.8. POLICIES AND PRINCIPLES FOR BARGAINING IN BC'S UNIVERSITIES**

#### **3.8.1. Bargaining Principles for the University Workplace**

As the establishment of university status has created pressures to change collective agreement provisions in ways that could reduce the homogeneity of members and therefore could weaken the community of interest amongst members, FPSE affirms that:

1. Collective bargaining provides an essential platform from which post-secondary educators have achieved significant improvements. The terms and conditions of work in our institutions, in turn, ensure that BC maintains high quality learning opportunities for post-secondary students.
2. University-related FPSE bargaining policies are based on a collectivist, egalitarian, and equitable university workplace model as opposed to a competitive, stratified model of employment.
3. Existing bargaining policy goals, labour relations principles and policies found in the FPSE Policy Manual continue to apply to those locals with bargaining certifications at institutions that have been granted university status.

### 3.8.2. Bargaining Policies for the University Workplace

Based on FPSE bargaining principles for the university workplace, this set of bargaining policy goals informs and guides bargaining in a university context:

1. **ACADEMIC FREEDOM:** Academic provisions are broadly defined and available to all faculty commencing upon first employment.
2. **EQUITY:** Collective bargaining upholds the equal rights of all faculty and establishes measures that maintain structures of equitable compensation and treatment
3. **PROTECTION OF EXISTING FACULTY:** New collective agreement provisions do not result in the diminution of existing rights, benefits or protections of faculty members.
4. **PENSIONS:** Local collective agreements support the continued participation of all faculty in the College Pension Plan.
5. **FACULTY:** Faculty are defined in Collective Agreements as Counselors, Librarians and all those who teach, evaluate students, develop curriculum, pursue scholarship or service activities, or are involved in academic or educational administration; such as Chair, Coordinator, Department Head or similar position.
6. **GOVERNANCE:** Collective agreement provisions provide that all faculty have access to all aspects of institutional governance: the right to represent and to be represented. Additionally, Collective Agreements have primacy over Senate, Board or administrative policies or dictates.
7. **COMPENSATION:** Collective Agreements maintain a single salary scale. This single scale, with as few steps as possible, allows all faculty to access all steps. As well, Collective Agreements ensure a single process of placement and progression on the scale and do not incorporate provisions for individual bonuses or merit pay provisions.
8. **RANK:** Collective Agreement compensation-related rights and benefits maintain a single category for all faculty. Any provision for varying job title is not connected to different pay rates.
9. **WORKLOAD:** Collective Agreement provisions ensure that all faculty are subject to faculty-controlled procedures for determining the allocation of work such as scholarly activity/research, teaching, and/or service. All components of the chosen workload are fully pro-rata for all faculty in all their professional roles. Collective Agreements limit overtime and provide specific caps on workload. In addition, all faculty have equitable access to whatever research monies or curriculum development monies are available.

## 10. JOB SECURITY:

### (a) Temporary/Non-Regular/Sessional/Term Contract and Conversion

Collective Agreements provide that temporary/non-regular/sessional/term contract employment is limited to a maximum of equivalents of two years of half-time work. Summative evaluation is subject to fair, transparent procedures, and subject to collective agreement processes and grievance provisions. Evaluations are conducted primarily by faculty members.

Given the absence of a negative summative evaluation, collective agreement provisions provide the seniority right of first refusal to available work during probationary periods. This is followed by automatic conversion of the person to a regular status of employment with requisite protection from layoff.

### (b) Regular/Continuing/Non-Probationary

Collective Agreements provide that this status either follows a successful completion of a posting/application process or a conversion process. Without cause, the process does not entail further summative review or evaluation. It provides continual seniority right of first refusal to available work up to full-time.

This status also provides full access to all provisions of the collective agreement. These provisions include full rights to layoff protection including seniority protection, notice, transfer, severance and recall.

### (c) Tenure

Collective Agreements that provide tenure and tenure-related provisions adopt them as inclusive concepts that conform to the following:

Tenure is:

- available to all faculty and faculty union members for all professional roles;
- available in a pro-rata fashion to all according to their time status (percentage of FTE workload);
- independent of compensation provisions;
- assigned through a peer-selection process;
- assigned to an individual and stays with the person, not the position.

### (d) Institutional Priorities

To include financial exigency and redundancy provisions that ensure that resources of an institution be focused on provision of educational services.

## 11. BARGAINING COORDINATION: FPSE continues to establish informal and formal coordination of bargaining across locals involved in university bargaining. That coordination includes the provision of research and labour relations expertise designed to strengthen existing Collective Agreements and improve bargaining outcomes for those locals.

(2010)

## 3.9. SALARY

FPSE supports, as a major bargaining objective for all locals, salaries on par with or better than those negotiated by BCTF locals.

(1991)

### **3.10. BENEFITS**

Each local faculty association shall negotiate for each union member of the Disability Management & Rehabilitation Committee:

- employer-paid release time to attend and prepare for meetings; and
- annual employer-paid education relevant to Disability Management and Rehabilitation.

*(2003)*

### **3.11. PROFESSIONAL DEVELOPMENT AND VACATION**

3.11.1. Non-regular faculty should have access to professional and scholarly development funds on at least a pro-rated basis across all institutions, and this should be a bargaining priority.

*(2011)*

3.11.2. Locals shall seek forty-four (44) days development time with a minimum of twenty-two (22) days for professional development time.

*(1994)*

3.11.3. Locals shall seek forty-four (44) days annual vacation for all faculty.

*(1994)*

### **3.12. CHILDCARE AND FAMILY LEAVE**

FPSE recommends that local Faculty Associations negotiate Employment Insurance top-up provisions, similar to those found in the Common Agreement for Paternity and Parental Leave, for the new provisions in the federal budget that allow working people to take a leave to care for a sick family member and to draw on Employment Insurance during this leave for the approved period.

Further, if there is a need to lobby the federal government to allow such top-up, FPSE shall begin such a lobby, in conjunction with other organizations such as the Canadian Association of University Teachers, the BC Federation of Labour, and the Canadian Labour Congress.

*(2003)*

### **3.13. JOB SECURITY/NO CONTRACTING OUT**

FPSE encourages the locals to adopt as a bargaining priority the protection of the work of the bargaining unit by negotiating no contracting out language.

*(1995)*

### **3.14. GOVERNANCE**

3.14.1. FPSE urges locals to bargain full local governance rights, e.g., release for faculty academic governance council or senate members and Board representatives.

*(2010 PC, 2004)*

3.14.2. FPSE urges locals to negotiate into collective agreements sufficient resources and release time for faculty elected to boards of governance and academic governance councils.

*(2004)*

3.14.3. FPSE urges locals to negotiate the governance provisions of the appropriate act governing the institution into their collective agreements.

*(2004)*

### **3.15. WORKLOAD**

#### **3.15.1. No Overloads**

FPSE supports the principle that no faculty member should be offered more than a full-time faculty workload as defined in the relevant local agreement. (2004)

3.15.1.1. Where local agreements have provisions for workload averaging that entail temporary overloads, those provisions shall ensure that the averaging period is completed within two years and results in an overall workload of full-time or less.

(2004)

3.15.1.2. No workload averaged assignment and no emergency overload assignment shall take place if there is a qualified, under-employed member available to do the work.

(2004)

3.15.1.3. When qualified, under-employed members are not available to take on additional assignments, new hiring takes place prior to any overload assignment.

(2004)

#### **3.15.2. Workload Equity**

3.15.2.1. FPSE shall advocate for workloads that permit faculty to engage in scholarly activity.

(2007)

3.15.2.2. FPSE advocates workload equity among career/technical, vocational and academic programs.

(1993)

#### **3.15.3. Weekend Classes**

The introduction of weekend classes is a condition of faculty employment and ought to be implemented only through contractual negotiation between an institution and its faculty union.

(1989)

#### **3.15.4. Workload and Unsupported Students**

When there are large numbers of international and other students in classes without adequate support, FPSE recommends that locals make this a bargaining issue.

(2018)

### **3.16. RELEASE TIME FOR STEWARDS**

FPSE locals are encouraged to negotiate for employer-paid release time for stewards.

(1992)

### **3.17. SEARCH PROCESSES**

(1997)

### **3.18. SMOKE FREE ACCESS**

FPSE shall encourage locals to negotiate language in local collective agreements to provide smoke-free access to and egress from all doorways to institution buildings.

(2000)

### **3.19. SEXUAL AND PERSONAL HARASSMENT**

- 3.19.1. FPSE locals are encouraged to bargain collective agreement language in the area of harassment, rather than using institutional policy, and are encouraged to use the grievance procedure to resolve complaints about harassment, rather than procedures found in the institutional harassment policy. (1994)
- 3.19.2. All FPSE locals are encouraged to bargain comprehensive language protecting faculty and staff from sexual and personal harassment, independent of any institutional policy on harassment which exists or is being developed, and this language is to be modeled on contract language developed by FPSE. (1993)

### **3.20. HUMAN RIGHTS AND COLLECTIVE AGREEMENTS**

FPSE's Human Rights & International Solidarity Committee shall review all current collective agreements to identify any clauses which are in contravention of human rights legislation and FPSE shall establish a strategy to remove any such clauses which may exist in current collective agreements. (1991)

### **3.21. EDUCATION TECHNOLOGY LANGUAGE AND COLLECTIVE AGREEMENTS**

FPSE urges locals to create or strengthen education technology language in their collective agreements in further rounds of bargaining. (2016)

### **3.22. RESEARCH AND SCHOLARSHIP**

FPSE recommends locals develop bargaining language for faculty research and scholarship workload. (2018)

## 4. LABOUR RELATIONS

### 4.1. PICKET POLICY

- 4.1.1. FPSE adopts the policy statement on picketing of the BC Federation of Labour:

#### BC FEDERATION OF LABOUR POLICY STATEMENT ON PICKETING

The labour movement in British Columbia has succeeded in developing among trade unionists respect for picket lines to an extent which is unsurpassed on the North American continent. This has enabled workers in BC to win extremely difficult disputes of the kind which are often lost in other areas.

The success of this picket line policy is the result of determination and principle on the part of union members combined with the policy of coordination through the BC Federation of Labour.

There is a danger of individual unions taking for granted the respect for picket lines which has been developed in BC and failing to follow properly the policy of coordination and consultation through the Federation when establishing picket lines. There have been an increasing number of cases where unions have commenced picketing without proper consultation and coordination.

Such abuses of the picket line policy can seriously jeopardize the respect for picket lines which has been developed and can provide an excuse for governments to restrict further picketing rights. Because it is essential to maintain the sanctity of picket lines and because it is essential to obtain the widest possible legal provisions for picketing, the BC Federation of Labour, by Convention decision, adopts the following picket line policy:

- (a) Any affiliated local union proposing to establish picket lines which may affect members of other affiliated unions must give to the BC Federation of Labour 72 hours notice (excluding weekends) to enable the Federation to call a meeting of Federation Officers and representatives of all affiliated unions likely to be affected by the proposed picket lines. The only exceptions shall be:
  - (i) in emergency situations such as sudden action by an employer against a group of workers;
  - (ii) where a general program of action, such as rotating strikes, has been agreed to by the Federation and the affiliates affected; and
  - (iii) where picketing affects only the striking union or only other unions with a special working relationship, such as building trade unions or construction or waterfront unions.

Where planned picketing is expected to affect multiple work locations or a significant number of other employers, unions should attempt to provide more than 72 hours notice. This will provide better opportunity for consultation and notice to affected unions and their members.

- (b) The union proposing to establish picket lines should provide the Federation with a list of other unions and employers who will be affected by picketing. The Federation will review the list of employers to determine if other unions that have not been identified should be involved in the picketing coordination process.

- (c) At the coordinating meeting, the Federation and the affiliates involved shall agree on those picketing proposals which will serve the interests of the workers directly involved and of the trade union movement.
- (d) No affiliated union shall picket in a manner other than that agreed upon under the above section. No affiliate shall violate such a picket line.
- (e) Appropriate sanctions shall be applied to affiliates violating this policy including any of the following:
  - (i) declaration that a picket line is contrary to Federation policy and subject to removal;
  - (ii) withdrawal of Federation support from an affiliate violating the picket policy;
  - (iii) suspension or expulsion of the affiliate responsible; and
  - (iv) such other sanctions as may be deemed appropriate.
- (f) The appropriate sanctions shall be determined by the Executive Council, with the right to appeal to the next Federation Convention.
- (g) Any non-affiliate seeking recognition for its picket lines must follow this procedure.
- (h) This policy shall be distributed to all organizations holding certifications in the province of British Columbia. (1991, 2001)

4.1.2. For the purposes of providing member organizations with mutual assistance in dealing with disputes, FPSE adopts the following policy with respect to disputes:

- (a) FPSE member organizations should adopt a policy on picket lines and a hot declaration policy.
- (b) FPSE member organizations should negotiate picket line clauses which allow union members to honour third party picket lines without disciplinary action, regardless of whether the pickets fall under federal or provincial jurisdiction. A picket line should be deemed 'legal' unless it has been ruled illegal by due process. The following is an example of an appropriate clause:

Employees covered by this Agreement shall have the right to refuse to cross a picket line arising out of a strike as defined in the *Labour Relations Code* of British Columbia or in the *Canada Labour Code*. A picket line shall be presumed to be a legal one unless it is determined to be illegal by a court or by the British Columbia Labour Relations Board.

- (c) FPSE member organizations should negotiate "Hot" declaration clauses which will allow union members to honour "Hot" declarations without disciplinary penalty or loss of pay. The following is an example of such a clause:

The Employer shall not enroll any student who, in the Union's opinion, appears at \_\_\_\_\_ as a result of a strike or lockout at another BC educational institution, nor shall post-secondary institution facilities be used to present courses originating as a result of such strike or lockout if such courses were conducted at the institution in dispute immediately before the work interruption. There shall be no penalty for an Employee who refuses to teach such students or courses.

- (d) FPSE member organizations should honor picket lines and “Hot” declarations of other FPSE member organizations. (1983)

## **4.2. JURISDICTION**

- 4.2.1. FPSE shall give priority to developing a province-wide plan to deal with jurisdictional issues that may result in the erosion of the current or potential work of members. (1999)
- 4.2.2. FPSE locals shall strive to have distributed learning leadership and coordinator positions at each institution recognized as faculty positions. (1998)
- 4.2.3. FPSE locals are encouraged to seek a variation of their certification to include any non-union area(s) which deliver educational services (e.g., community education, extension services, contract training, etc.) or, where such certification exists, to take the steps necessary to ensure representation of faculty and, where appropriate, staff from these areas in their bargaining units. (1998)

## **4.3. EMPLOYMENT EQUITY**

- 4.3.1. FPSE shall work toward equity for all as a long-term goal. (1999)
- 4.3.2. FPSE commits itself to protect the rights of minorities within the bargaining unit of each union and will work towards maintaining those rights where appropriate and improving them where necessary. (1981)

## **4.4. WORKPLACE HEALTH, SAFETY AND ENVIRONMENT**

- 4.4.1. FPSE supports the ban on the cosmetic use of pesticides in British Columbia. (2011)
- 4.4.2. FPSE supports all efforts to eliminate or reduce the use of toxic chemicals and pesticides, including cleaning products containing those chemicals, in order to reduce environmental pollution and protect the health of workers and the public.
- FPSE supports full disclosure in the labelling of household products used at the workplace, as well as hazard identification. (2007)
- 4.4.3. FPSE locals encourage and support the rights of workers on campus to exercise their rights to refuse unsafe work. (2007)
- 4.4.4. FPSE encourages its locals to pursue scent-considerate policies through their local joint Occupational Health and Safety Committees. (2004)
- 4.4.5. FPSE shall recommend to all FPSE locals the creation of the office of the Occupational Health and Safety Chair, to be made part of the local executive, to raise the profile of local occupational health and safety needs and issues. (2000)
- 4.4.6. FPSE shall assist locals to ensure that their institution complies with the Workers' Compensation Board regulations on violence in the workplace. (1996)

- 4.4.7. FPSE works with the BC Federation of Labour to lobby WorkSafe BC to address third-hand smoke; specifically by entitling workers to refuse work as unsafe in workplaces where there is exposure to third-hand smoke; establishing methods to quantify exposure to third-hand smoke; determining suitable engineering control protocols for eliminating the risk of exposure to third-hand smoke in work places to the maximum extent possible; establishing protocols for personal protective equipment for workers exposed to third-hand smoke where exposure cannot be eliminated by engineering controls; and educating all BC workers on the risks of exposure to third-hand smoke. (2016)

#### **4.5. SEXUAL AND PERSONAL HARASSMENT**

- 4.5.1. FPSE shall strongly recommend that the penalty for a finding of harassment or discrimination should include a range of options, such as is the case in other jurisdictions, and should not be limited to dismissal. (1998)
- 4.5.2. FPSE shall provide sexual harassment training for all stewards and grievance chairs, including the issue of sensitivity to anyone involved in sexual harassment complaints. (1995)
- 4.5.3. FPSE shall encourage faculty associations to encourage other groups on campus, e.g., societies, students' associations, to provide their constituents with information on sexual harassment. (1995)
- 4.5.4. FPSE member locals are encouraged to adopt a policy of not participating or engaging in decision-making on institutional harassment committees which are governed by institutional policy in situations where the committee may make recommendations resulting in disciplinary action against a member of the local. (1994)
- 4.5.5. FPSE encourages locals to provide members with information regarding:
- (a) the nature and forms of harassment including sexual, racial and personal;
  - (b) responsibilities and liability of the institutions to provide a harassment-free environment;
  - (c) individual and collective rights to protect persons from all forms of harassment and redress for victims of harassment. (1992)

#### **4.6. EMPLOYMENT STANDARDS**

FPSE shall oppose any legislation that allows employers and employees to opt out of the minimum requirements of the *Employment Standards Act* as written prior to March 2002. (2002)

#### **4.7. NATURAL JUSTICE & INSTITUTIONAL POLICIES**

FPSE recommends the establishment of faculty support infrastructures controlled by local faculty associations to assist members who are being challenged by institutional processes, such as grade appeals. (2001)

#### **4.8. JOB SECURITY**

- 4.8.1. FPSE condemns the practice of laying off faculty, the effect of which is to decrease capacity at post-secondary institutions in the midst of a skills shortage. (2006)

- 4.8.2. FPSE recommends to its member organizations that members of this Association do not participate in making recommendations for budget priorities which could result in lay-offs of individual members if carried out. (1983)

## 4.9. SALARY

FPSE encourages locals to ensure that a salary placement review committee is in place at each local and that members are informed of the committee's existence. (2001)

## 4.10. WORKLOAD

FPSE shall develop models and standards for reasonable faculty workloads, and FPSE shall develop strategies for achieving fair and equitable workloads. (1988)

## 4.11. BENEFITS

FPSE locals shall move toward a centralized, co-trusteed health and welfare benefit plan that would permit flexible options for those locals that choose them. (1993)

## 4.12. PART-TIME FACULTY

FPSE shall promote increased protection for voluntary, permanent, proportional, and pro-rated positions. (1990)

## 4.13. RELEASE TIME FOR STEWARDS

FPSE recommends to the locals that they arrange release time for their chief steward or equivalent person. (1991)

## 4.14. RETIREMENT

### 4.14.1. Principles

1. Transition to retirement initiatives should be developed by FPSE and its locals to encourage work-force transition within a framework that:
  - respects the continuing contributions of senior faculty;
  - respects their right to continue working;
  - provides them with incentives to pro-actively plan for their retirement or to work at lower time-status should they wish to; and
  - which increases opportunities for new and part-time faculty to work toward their desired time-status and become regularized as quickly as possible.
2. Within the scope of FPSE policy, locals should develop activist agendas to address Transition to Retirement. (2017)

### 4.14.2. Prioritization of Transition to Retirement Initiatives

Locals considering Transition to Retirement initiatives should do so in the following priority order:

1. Full retirement with retirement incentives as needed;

2. Phased retirement; that is, a process where a member gradually reduces their workload, aiming towards an agreed-upon, binding retirement date;

To the extent post-retirement re-employment options encourage retirement, such options should limit re-employment in terms of length and time-status, and also limit re-employment rights.

3. FPSE and its locals will promote Transition to Retirement initiatives that attempt to limit any combination of pension and employment income such that the total income not exceed a full-time salary. (2017)

#### **4.14.3. Removal of Mandatory Retirement**

4.14.3.1. When discussing or proposing Pension Plan design changes as a pension partner, FPSE should continue to consider carefully the predictable intergenerational effects those changes will have on the availability of work for newer faculty and on the amount of work older faculty may, with as little impact as possible, be able to let go of.

4.14.3.2. FPSE will advocate for pension rules which would require both employers and employees to make contributions to the Pension Plan regardless of whether the employee is already collecting a pension with further retirement incentives as needed. (2013, 2017)

#### **4.15. EXCLUDED PERSONNEL**

FPSE recommends to member organizations that, during a time of lay-off to regular members of an association, the association shall strongly resist any further development of excluded positions at the institution. (1983)

#### **4.16. SEARCH PROCESSES**

FPSE recommends that locals inform their members of the laws and responsibilities involved in search processes (including those processes involved in lay-off procedures); and ensure all search processes are carefully monitored and grieved whenever violations of due process occur. (1997)

#### **4.17. DEGREE COMPLETION**

Protection of job security for university level instructors should be equivalent to protection for other instructors. (1991)

#### **4.18. UNION DELIVERY OF TRAINING**

FPSE shall request that the BC Federation of Labour and its affiliates put in place a protocol to ensure that, where unions are participating in the design of training programs such as upgrading and skills training, these programs use unionized public sector instructors. (1998)

#### **4.19. LOCAL DUES**

FPSE recommends to Locals that they not adopt flat rate dues structures as it is unfair to those who make a low wage and instead use a dues percentage model. (2018)

## 5. PENSIONS

### 5.1. OVERVIEW OF PENSION PARTNER AND TRUSTEE ROLES AND OBLIGATIONS

FPSE leadership in the role of partner and FPSE-appointed trustees has a responsibility to plan members and to FPSE to ensure that the pension promise is kept. This principle has primacy over all others.

The pension promise is that set of financial features of the plan designed to enable pension recipients to live with dignity and security; they are embodied in the Rules of the College Pension Plan.

#### 5.1.1. Definition of FPSE as a College Pension Plan Partner

The FPSE partner is for operational and representative purposes the FPSE President. The President is the Chief Executive Officer of the Federation as mandated and authorized by the Constitution of the Federation, which also set out that the President is responsible to the Presidents' Council and to the Annual General Meeting.

With the approval of Presidents' Council, the President may appoint individuals to assist in representative functions or to act as the President's delegate.

#### 5.1.2. Responsibilities of FPSE as a Partner

- 5.1.2.1. To make or rescind three trustee appointments.
- 5.1.2.2. Jointly with BCGEU to make or rescind one trustee appointment of a person who is retired from service and receiving a pension under the plan.
- 5.1.2.3. To nominate jointly with BCGEU a trustee as a director of the BC Pension Corporation.
- 5.1.2.4. Jointly with all other partners to direct the Board of Trustees to amend the pension plan rules subject to legislated conditions.
- 5.1.2.5. To develop policy and procedures for the appointment, evaluation and removal of trustees.
- 5.1.2.6. To work to enable the plan to keep the pension promise.

#### 5.1.3. Fundamental Principles

- 5.1.3.1. As a partner, FPSE is accountable to its membership and must function within the policies and priorities developed by the membership.
- 5.1.3.2. Pensions operate on a long-term horizon; consequently, decisions regarding the pension plan should be driven by that horizon rather than immediate or short-term considerations, including political and financial aspects.
- 5.1.3.3. Trustees are obligated to act in the best financial interests of members.
- 5.1.3.4. Trust law requires trustees to act in a prudent, diligent, and fair-handed way.

#### 5.1.4. Operating Principles

- 5.1.4.1. Shared Decision-Making  
Joint trusteeship is a commitment to shared decision-making by employee and employer plan partners.

5.1.4.2. Integrity

Governance policies of the Pension Plan as well as partner and trustee decision-making and actions are carried out in an open, principled, consistent, coordinated, transparent and accountable manner to partners, trustees and members.

5.1.4.3. Communication

- (a) Members should have information on their pension entitlements as well as more general information on the plan. FPSE-appointed trustees will promote awareness of the Pension Plan and its value to members and other beneficiaries.
- (b) FPSE as a partner and FPSE-appointed trustees maintain open, timely and accessible communications with each other and with members of the pension plan at all times and especially when changes to the plan are under consideration.
- (c) FPSE-appointed trustees shall advocate for:
  - the Pension Board to maintain the availability of high quality, free and frequent pension-related workshops for members throughout the province;
  - information being supplied by trustees to plan members to be, as much as possible, individually oriented and available at any time;
  - the use of clear and concise, accurate and timely, and consistent and proactive communications.

5.1.4.4. Sustainability

Partners and trustees work to keep the pension promise.

5.1.4.5. Guidance

- (a) FPSE has an obligation to ensure the relevant policies of the Federation are being fulfilled.
- (b) Within requirements of fiduciary duty, FPSE-appointed trustees are expected to advance the goals of the Federation.
- (c) FPSE has oversight of its partner representatives and its trustees; FPSE has a responsibility to remove trustees or representatives who fail to perform their duties.

5.1.4.6. Engagement

Partners and trustees must have exposure to varying points of view, stay current on pension related issues, maintain contact with internal and external stakeholders, and generally be engaged with the pension community to improve the quality and function of our pension plan.

5.1.4.7. Building Capacity

- (a) Partners and trustees will work to ensure that each is knowledgeable about current and emerging pension plan issues.
- (b) FPSE is responsible for ensuring that partner representatives, appointed trustees, and trustee designates receive the training necessary in pension plan governance to carry out the policies of the Federation and their fiduciary responsibilities.
- (c) FPSE-appointed trustees will advocate for regular trustee training, directed and funded by the Board.
- (d) Orientation of new Presidents' Council members must include receiving an overview of FPSE's role as a partner and relevant FPSE policy.

5.1.4.8. Economic Security

The financial aspects of the pension plan are important for both active members and recipients.

- (a) The pension benefit is an important benefit for attracting and retaining employees.
- (b) A pension received should maintain its real purchasing power during retirement.
- (c) Comprehensive post-retirement group benefits should be provided at an affordable cost for retirees.

5.1.4.9. Service to Members

FPSE-appointed trustees shall advocate for:

- (a) standards of service to members to be established and regularly reviewed by the Board;
- (b) an open and accessible appeals process to be made available to members.

## 5.1.5. Goals

FPSE should continue to maintain and work for:

- (a) the continuation of a jointly-trusted defined benefit pension plan;
- (b) full inflation protection of pension benefits;
- (c) retiree access to fully-funded health benefit plans;
- (d) a strong, healthy, sustainable pension plan that reflects member interests;
- (e) protection from detrimental legislative and regulatory changes;
- (f) seeking legislative and regulatory changes that will have a positive effect on the plan;
- (g) ensuring that legislative and regulatory changes are made to the greatest extent possible by mutual consent of the plan partners;
- (h) additional employer contributions, not matched by employees, for universally available non-registered benefits;
- (i) bringing in a framework to allow partial retirement with corresponding access to partial retirement benefits;
- (j) improving the accrual rate to a maximum rate allowable under the law.

*(2011, 2012, 2013)*

## 5.2. DETERMINATION OF PENSION PLAN BASIC BENEFITS

- 5.2.1. FPSE supports a change in the reduction factors applied to pensions taken early, provided that the money saved is first used to increase the accrual rate as much as possible on income under the YMPE. *(2013)*

- 5.2.2. FPSE recommends that a policy be implemented that pensionable service be calculated on no more than regular salary (the job rate), excluding performance bonuses. *(2004)*

- 5.2.3. Where lump sum payments in lieu of vacation when added to salary do not exceed the full-time rate for a job, they should be included in calculations of pensionable service and salary. *(2004)*

- 5.2.4. FPSE, in its capacity as a Pension Plan Partner, shall seek a policy for the College Pension Plan allowing the plan to issue a pension to a limited member whose ex-spouse has not retired or terminated service. *(2004)*

### **5.3. PENSION PLAN HEALTH BENEFITS**

- 5.3.1. FPSE recommends a policy whereby subsidy of catastrophic type of coverage for health and dental insurance plans be given a higher priority than subsidy for more predictable types of coverage. *(2003)*
- 5.3.2. FPSE recommends that the College Pension Plan continue to offer plan members, spouses and dependent children with existing coverage access to extended health and dental plans, even if subsidy levels paid for by the plan change. *(2003)*
- 5.3.3. FPSE recommends that, should benefit subsidy levels need to be cut by the College Pension Board of Trustees, the issue of tax effectiveness be considered. *(2003)*
- 5.3.4. FPSE supports continuing subsidy of spousal coverage. *(2003)*
- 5.3.5. FPSE supports a principle that, where it is reasonable and plausible to do so, attempts be made to shield existing retirees from changes to non-pension benefits. *(2003)*
- 5.3.6. When considering future improvements in the College Pension Plan, a balance should be sought between the interests of active members and those of retired members. *(2001, 2009)*

### **5.4. INFLATION PROTECTION FOR PENSION PLANS**

- 5.4.1. FPSE endorses guaranteed full inflation protection for the College Pension Plan. *(2007)*
- 5.4.2. FPSE supports a funding policy for the Inflation Adjustment Account (IAA) that would establish a 15-year time horizon for indexing levels at each College Pension Plan valuation. *(2003)*
- 5.4.3. FPSE supports a funding policy for the Inflation Adjustment Account that would establish the covering of previous indexing shortfalls, should they occur, as the first priority in the event of an IAA surplus. *(2003)*
- 5.4.4. FPSE recommends that the Inflation Adjustment Account be evaluated using the same time period for evaluation as the general account. *(1993)*

### **5.5. ACCRUAL RATE FOR PENSION PLANS**

Pension Plan Partners shall make improving the accrual rate, along with enhancing inflation protection, a priority. *(2012)*

### **5.6. PENSION GOVERNANCE**

FPSE-appointed trustees will advocate for and support governance policies and procedures that are considered best practices and which are regularly reviewed. *(2013)*

## 5.7. FPSE TRUSTEE APPOINTMENT PROCESS

### 5.7.1. Appointment Process for FPSE Members Serving as Plan Trustees

#### 5.7.1.1. Nominations

- (a) Whenever possible incumbent plan trustees who are FPSE members shall indicate at the beginning of the second year of their term whether they intend to stand for a subsequent term.
- (b) The Pension Advisory Committee (PAC) will canvass for nominations so that it can make a recommendation on trustee nominations to Presidents' Council (PC). FPSE will send out a nomination information package to Locals including roles and responsibilities of trustees, deadlines and process for nomination and selection of trustee candidates.
- (c) PAC's recommendation will be conveyed to PC in a timely manner and in order for PC to be able to deal with it prior to the AGM in the year previous to the term commencement year.
- (d) Nominees do not have to be or have been PAC members. PAC may choose to make more than one recommendation or choose not to make any recommendation.
- (e) When the nominated person is an incumbent trustee, policies 5.7.1.2 (a) through 5.7.1.2 (c) do not apply.
- (f) The Pension Trustee Nomination Sub-Committee will be comprised of both PAC members and two members from Presidents' Council.

*(2015)*

#### 5.7.1.2. Appointments

- (a) In the year previous to that in which a trustee appointment commences and prior to the AGM in that same year previous, Presidents' Council will make a trustee-designate appointment for confirmation by AGM.
- (b) Upon confirmation, the successful trustee-designate is immediately authorized to attend trustee board and committee meetings with funding support. FPSE will request that the Board allow them to attend with voice.
- (c) Unless there is action taken by PC or the AGM to cancel the trustee-designate appointment, that person will become a trustee upon the completion of the incumbent trustee's term.
- (d) Trustee-designates will be given every opportunity to become familiar with the policies and issues that will face them as trustees, including attendance, with FPSE support, at approved conferences.
- (e) To the extent possible, a trustee who is not able to finish a term will give as much notice as feasible. Depending on the timing of the vacancy, the President will either initiate as normal as possible a cycle of consultations and decisions leading to a new appointment or initiate an extraordinary process that allows for as much consultation as feasible but ensures that the trustee position is filled in a timely fashion.
- (f) A first term trustee is not subject to the selection process until the completion of their second term.

*(2011, 2013, 2015)*

5.7.2. Appointment of FPSE Employee as a Plan Trustee

One FPSE-appointed trustee will normally be a Staff Representative of FPSE. The President will make a recommendation for the renewal of this appointment or for a new appointment from staff to the first Presidents' Council meeting in the year the appointment commences. In the case of a new appointment, policies 5.7.1.2 (a) and (b) shall also apply. (2011)

5.7.3. Trustee Equity and Gender Equity

5.7.3.1. FPSE will identify barriers to participation as Pension Plan trustees of members from historically marginalized groups, including women. It will work to eliminate those barriers through the development of specific engagement and outreach activities, including training.

5.7.3.2. Whenever nominations are being sought for trustees, there must be a specific effort to achieve broad participation from historically marginalized groups.

5.7.3.3. For appointments commencing in 2014 and thereafter and pursuant to 5.1.2.1 and 5.1.2.2, Presidents' Council shall ensure there is at least one female and at least one male trustee amongst the FPSE appointee complement.

5.7.4. Appointment of a Retired Member as a Plan Trustee

Pursuant to the *Public Sector Pension Plans Act* (Schedule A – College Pension Plan, Part 1.1 – Joint Trusteeship), FPSE and BCGEU ("the plan member partners") have entered into a unanimous management agreement with the government and Post-Secondary Employers' Association plan partners. This agreement includes the composition of the Board of Trustees of the College Pension Plan and the appointment of trustees, including a trustee who will represent the views and interests of plan members who are retired. To fulfill this legislative mandate, FPSE and BCGEU jointly appoint trustees who are retired from an FPSE local's bargaining unit or a BCGEU bargaining unit and are receiving a pension.

A retired trustee is appointed for a three-year term, which is renewable once. The practice for appointments followed jointly by FPSE and BCGEU is the following: when the term or terms of the retired trustee appointee of one union has expired, the other union has the opportunity to appoint the next retired trustee.

Since FPSE represents the great majority of both active and retired pension plan members, FPSE partner representatives will:

- (a) take the lead in the appointment process
- (b) ensure that anyone being considered is receiving a pension through the College Pension Plan and retired from service; for FPSE, retired from service means a retired trustee is not in receipt of compensation from a College Pension Plan employer;
- (c) ensure that anyone being considered has the appropriate knowledge and awareness of pension plan issues and is committed to fulfilling to the greatest extent possible the policies and goals of FPSE;
- (d) ensure that FPSE's current appointed trustees are given the opportunity to comment on the short-listed retired trustee candidates before an appointment is finalized.

(2011, 2015 PC, 2019)

## 5.7.4.1. Nominations

- (a) When it is FPSE's turn to appoint a new retired trustee, local Presidents and local Pension Advisory Committee representatives will jointly initiate a canvas of potential nominees during the fall of the calendar year preceding the beginning of such a trustee's term of appointment.

## 6. PROFESSIONAL & SCHOLARLY DEVELOPMENT

### 6.1. POSITION STATEMENT

FPSE recommends to all locals the adoption of the position statement on professional development as developed by the Professional & Scholarly Development Committee:

Faculty development is both an obligation and a right. Faculty must have the opportunity to enhance and direct their own development at BC post-secondary institutions. The human element must not be neglected. Both the Ministry and individual institutions have an obligation to provide support in time, assistance, and money to facilitate faculty development.

Based on the simple proposition that faculty development is both an obligation and a right, faculty development:

- is personally initiated, focusing on the individual's different interests, needs and stages of development;
- is committed to the view of the individual as complex, responsible, and capable of growth and development in many modes;
- is designed, operated, and directed by faculty;
- is available to all members in the unit;
- is ongoing, involving change in types of activities and objectives for both individuals and institutions at different stages.

Included among the objectives of faculty development are activities which assist individuals to:

- maintain currency in a field or discipline
- update academic or other qualifications
- enhance career mobility
- enhance instructional abilities
- develop and document instructional innovations
- engage in institutional exchanges
- plan and execute conferences
- attend seminars or special events
- develop expertise complementary to one's discipline
- enhance personal development
- engage in scholarly activities
- develop a community of teachers and scholars
- provide community and professional service
- rejuvenate ... and much more.

Faculty development funding of activities currently takes place in a diverse way in the system and should be enhanced through the collective bargaining process in each institution.

Ongoing, sustainable funding is critical to the process. Funding must provide equal opportunities for faculty development at all institutions regardless of their geographic location.

Similarly, guaranteed, adequate and separate periods of time must be set aside and determined at the local level. This should include annual Professional Development time, access to both short and long-term leaves, and sabbaticals.

FPSE's support will be to provide forums for the exchange of ideas, organize conferences and, through all other means consistent with its role, further enhance faculty development in the BC's post-secondary institutions.

The Professional & Scholarly Development Committee will continue to support the efforts of FPSE and its locals to secure and preserve, for all members and at all institutions, the professional development standards and principals recognized and approved by FPSE in its policies. *(1992, 2004)*

## **6.2. NO REDUCTION OR DENIAL OF RIGHTS**

As professional development is an essential element of a dynamic educational system, and as faculty unions have historically negotiated professional development as part of their collective agreements to ensure adequate provision and faculty participation and involvement in its application, FPSE rejects and will actively oppose any unilateral reduction or denial of professional development rights. *(2002)*

## **6.3. EQUITABLE ACCESS**

6.3.1. All faculty should receive professional and scholarly development funds system-wide. *(2011)*

6.3.2. FPSE supports the goal that, through a process of leveling up, all faculty have equitable access to professional development (as defined by FPSE policy) in all institutions. *(1999)*

6.3.3. FPSE recommends that the provincial government recognize the need for faculty development opportunities at the institutional level. Such activities must be defined and directed by faculty and must be supported through the provision of adequate funding levels for such activity in institutional budgets. *(1992)*

## **6.4. EDUCATION LEAVES**

FPSE supports the objective of achieving, through lobbying and bargaining, a target level of funding to support educational leave for college and institute faculty. *(1994)*

## **6.7. PROFESSIONAL DEVELOPMENT TIME**

Locals shall seek forty-four (44) days development time with a minimum of twenty-two (22) days for professional development time, as defined in FPSE's Professional & Scholarly Development position statement. *(1994)*

## **6.8. SCHOLARLY ACTIVITY**

FPSE recognizes that scholarly activity is integral to effective student learning and is a component of all faculty work. FPSE supports and advocates for workplace environments that enable faculty engagement in scholarly activity.

Elements of scholarly activity include:

- scholarly teaching, the application of teaching or learning principles to the practice of teaching to enable more effective teaching strategies and learner outcomes;
- scholarly enquiry, discovery, integration, creativity, professional service and application;
- research in support of teaching and learning.

## **7.6. HIV/AIDS POLICY**

### **1. EDUCATION PROGRAM**

(a) FPSE endorses and supports the development of educational programs for students and the community at large, which are designed to assist in the reduction of the spread of HIV/AIDS. Specifically, FPSE encourages member associations/unions to implement programs which:

- Promote the distribution to students of HIV/AIDS-related information which includes frank and open discussion of the modes of transmission of HIV/AIDS and frank and open discussion of ways individuals may reduce the spread of HIV/AIDS (e.g., use of condoms, other safe sex practices, safe needle use for drug users).
- Improve liaison between institutions and various health agencies in the delivery of up to date and appropriate information and programs relating to HIV/AIDS.
- Promote public education through community programs, lectures, films, etc.
- Encourage institution libraries to maintain books, magazines, films, etc., containing up-to-date information on HIV/AIDS.

- (b) FPSE encourages member associations/unions to support educational programs which are designed to reduce discrimination against persons with HIV/AIDS, persons infected with HIV, and against groups which have been associated with HIV/AIDS.

  - (b) The employer shall not be allowed to require an employee to provide diagnostic information resulting from voluntary testing.
- 4. WORKPLACE ENVIRONMENT  
FPSE is concerned about the special health risks faced by persons with HIV/AIDS and encourages member associations/unions to:
  - Work with management to ensure that faculty and staff members with HIV/AIDS are able to work in an environment which minimizes the risk of acquiring infections at the workplace and minimizes stress or other factors which would aggravate any health problems that may occur. This may require altering work assignments, providing rest areas, providing private offices, providing for reduced workload, etc.
  - Review their local benefit plans to ensure that the plans do not discriminate against persons with AIDS or those infected with HIV. Locals should also be cautioned to resist any management attempts to alter the terms of agreements with carriers in such a way that benefits to persons with AIDS/HIV might be reduced or eliminated.
  - Work to ensure that faculty and staff are not discriminated against with respect to hiring, promotions, transfers, professional development, educational leave, or any work-related activities on the basis of their having AIDS or being infected with HIV.
- 5. FIRST AID SERVICES  
FPSE encourages member associations/unions to promote the development of first aid/emergency procedures and facilities that are prepared to provide emergency health care to persons who may have AIDS or to persons who may be infected with HIV. Procedures should be standardized to provide for emergency care under the assumption that anyone requiring emergency attention may have AIDS or may be infected with HIV.
- 6. REPORTING  
FPSE locals are encouraged to report as they deem appropriate on activities that stem from enacting this policy. *(1989, 2009 PC)*

## **7.7. PERSONAL/SEXUAL HARASSMENT**

### **GENERAL**

- (b) A faculty member treats students, staff members, faculty colleagues, and other members of the college community with respect and dignity.
- (c) Faculty members do not use their status for soliciting personal gain in exchange for favours as a result of the faculty members' status.
- (d) A faculty member acts with respect for every person's right to full and equal recognition and exercise of a person's rights and freedoms, without distinction, exclusion, or preference based on race, colour, sex, pregnancy, family status, marital status, sexual orientation, civil status, age, creed or religion, political convictions, language, ethnic or national origin, social condition, disability or the use of any means to palliate a handicap, or on any other ground that is not reasonable. - (e) A relationship between a faculty member and any other member(s) of the post-secondary community that is based on business, kinship, marriage, or affectional relations is not allowed to influence in any way the faculty member's work, work situation or status, or to advantage or disadvantage any of the persons involved in such relationship.

Confidential information includes, but is not limited to, information about a student's academic performance, personal life, and political or religious views. *(1989)*

- 7.7.3. FPSE encourages locals to develop an education program on harassment and a pamphlet on procedural choices available for members who are charged with harassment, as well as a pamphlet and educational program for complainants outlining procedural choices in filing a complaint, and that both pamphlets outline the advantages and disadvantages of these choices. *(1995)*

FPSE encourages locals to promote and support institutional policies on naming properties and assets that reflect a more comprehensive and inclusive view of the institution's relationship to its local community.

*(2018)*

## EQUITY

### 7.10. EQUITY IN SOCIETY

#### 1. COMMITMENT

The Federation of Post-Secondary Educators is committed to achieving equity for groups who experience barriers to full participation as educators or learners in the post-secondary community. Groups include but are not limited to Aboriginal peoples, women, visible/racialized minorities, persons with disabilities and lesbian, gay, bisexual, two-spirited and transgender peoples, and people living in poverty.

The commitment to equity begins with the acknowledgement of inequity and requires a proactive approach to redress the effects of systemic discrimination. In the post-secondary environment, systemic discrimination manifests itself in barriers to access, employment, career progression, inclusion, respect and acceptance. Some forms of knowledge production, dissemination and pedagogy have been privileged over others, a practice that has limited opportunities and scope of activity for marginalized groups.

#### 2. GOAL

The goal of equity is to achieve inclusiveness and social and economic justice through recognition, respect, representation, accountability, and responsibility. It includes actively pursuing the development of balanced, healthy and harmonious working environments.

In the post-secondary sector, we strive to guarantee all people the freedom to realize and fulfill their potential free from restrictions. Such restrictions include unvoiced biases and assumptions, employment and education inequities, lack of accommodation in learning and employment and institution structures, policies and practices which perpetuate systemic discrimination. An inclusive post-secondary institution is one that is active in eliminating these restrictions and promotes the full democratic participation of all its members.

#### 3. ACCOUNTABILITY

Achieving equity is an ongoing process that requires both individual and collective responsibility. Unions must take a leadership role in realizing equity by negotiating equity provisions in agreements. They must respect terms and conditions of employment such as anti-discrimination, harassment, employment equity, accommodation, salary equity and work/life balance provisions. Unions must work to foster teaching and learning environments which value diverse contributions to the post-secondary community at all levels.

*(2008)*

### 7.11. EMPLOYMENT EQUITY

#### A Positive Remedy for Discrimination in BC Colleges, Universities, and Institutes

Members of FPSE, whether through institutional policy or contract negotiations, shall ensure that there exists an action plan on employment equity in their institution that incorporates the philosophy, goals and strategies outlined in this policy document.

#### 1. STATEMENT OF POLICY

FPSE supports the concept of equity for all individuals, and in so doing urges all institutions to establish a plan to ensure that ongoing practices in the workplace do not limit an individual's or group's right to employment opportunities for reasons unrelated to

properly assessed ability. While FPSE recommends policy, it is the responsibility of all institutions to establish an employment equity program. Such programs create a fair and equitable workplace, offer all individuals full opportunity to develop potential, and correct the conditions of disadvantage in employment experienced by designated groups: women, First Nations peoples, persons with disabilities, persons who because of their race, colour or ethnicity are in a visible minority, and persons who because of their sexual orientation, family status, marital status, age, beliefs, part-time employment needs or need for childcare services suffer prejudice or disadvantage in employment.

As part of employment equity, a requirement is that a program be established to provide fair and equitable pay. The concept of equity is also understood to include education equity; thus, it requires a commitment not only to equity for members employed by the institution, but also to the development of the abilities and aspirations of all students in an environment free of prejudice, discrimination and stereotyping.

Participating institutions will establish procedures and practices designed to eliminate, redress, and prevent disadvantage in employment, pay and education, as required for designated persons and groups. Included in this set of procedures will be a structure or mechanism that provides accountability for the maintenance of equity in the work and learning environments.

## 2. GOALS OF EMPLOYMENT EQUITY POLICY

The goals of any employment equity policy should be the development, implementation, maintenance of, and accountability for philosophy and strategies that identify and eliminate systemic barriers and discrimination in the work and learning environments; the identification and redress of past acts of discrimination; and the development of workplace structures that accommodate the realities of life in our diverse society, e.g., the need for there to be two wage earners in families.

The actualization of such goals first requires that institutions identify the equity issues prominent in the workplace and then develop policies and strategies that create and maintain the following activities and structures:

- equal pay for work of equal value (to achieve and provide for pay equity);
- sexual and personal harassment policy and procedures;
- childcare programs for employees and students;
- appropriate parental leave provisions in collective agreements and administrative policies;
- policy and procedures to hire and retain qualified individuals from designated groups;
- decision-making and accountability structures;
- hiring protocols;
- special measures to accommodate the needs of individuals from designated groups.

## 3. STRATEGIES RELATED TO EMPLOYMENT EQUITY POLICY

The process of ensuring equity in work and learning environments could be facilitated through the use of the following strategies:

- (a) establishing an employment equity officer position reporting to the President of the institution;
- (b) developing a plan to identify and to apply special measures that accommodate individuals in designated groups;
- (c) including delegates from designated groups, whenever possible, in the membership of search committees;
- (d) developing advertising/recruitment procedures that actively elicit applications from qualified individuals from designated groups;
- (e) short-listing qualified individuals from designated groups;

- (f) developing numeric and other goals and timetables regarding the hiring of individuals from the designated groups;
- (g) establishing a mechanism for the handling of discrimination complaints;
- (h) developing a system of evaluation or other mechanism that ensures accountability of administrators regarding discriminatory practices and/or actions;
- (i) developing a plan to identify systemic barriers for persons from designated groups;
- (j) developing equity processes that do not erode faculty and staff rights in hiring.

(1992)

## **7.12. EQUITY AND INTERNAL ASSOCIATION MATTERS**

- 7.12.1. FPSE encourages locals to educate members on equity issues facing women, visible minorities, aboriginal people, people with disabilities, and gay, lesbian, bisexual and transgender persons, and to educate members that our interests are served in removing any and all barriers preventing full equity. (1999)
- 7.12.2. FPSE strongly recommends that each faculty association ensures that each faculty association has in place a Status of Women Committee, funded and supported by the local association. (1988)
- 7.12.3. Locals are encouraged to achieve gender parity in the makeup of their elected positions. (1988)
- 7.12.4. All member organizations of FPSE shall:
  - (a) work to encourage full participation of women in their own unions and in FPSE;
  - (b) examine their own bylaws and Constitutions to identify barriers to participation of women in the leadership and operation of their unions;
  - (c) initiate or cooperate in studies similar to Kwantlen's *Achieving Gender Equality* which could identify barriers to access for women at individual institutions.

(1985)

## **7.13. NON-REGULAR FACULTY**

Each local is encouraged to guide and to ensure the equitable treatment of non-regular faculty which may include such measures as an ombudsperson, a code of ethics, and training activities. Equitable treatment includes, but is not limited to, voting rights, evaluation, and inclusion in college activities. (1993)

- 7.14.2. FPSE shall lobby for adequate on-site childcare at every institution. (1990)

### **7.17. POVERTY**

- 7.17.1. FPSE endorses the Poverty Reduction Coalition's Call for a Poverty Reduction Plan in BC. (2016)

### 8.1. ADMISSIONS AND TRANSFER

#### ARTICULATION

- 8.1.1. FPSE supports the development of a seamless post-secondary education system and asserts that any restructuring necessary to facilitate this development will require active faculty participation. (1993)
- 8.1.2. FPSE endorses efforts to articulate courses and curricula across the post-secondary education system, so long as the needs of the adult learner remain the primary consideration. (1993)
- 8.1.3. FPSE recommends that entry standards into the 3rd and 4th year at universities be uniform for transferring students. (1993)
- 8.1.4. FPSE recommends that FPSE as well as organizations representing other concerned constituencies be given continuing positions on the BC Council on Admissions and Transfer. (1990)

#### BLOCK TRANSFER

- 8.1.5. FPSE advocates that the articulation of curriculum be conducted through an outcomes approach (or other similar neutral format), with these outcomes developed and agreed to by Provincial Articulation Committees; and that the accrediting institution be the sending public institution. (1998)
- 8.1.6. FPSE shall actively pursue initiatives to secure block transfer for the BC public post-secondary system. (1997)
- 8.1.7. FPSE supports the development of a province-wide system of laddering, integrated programs and block transfer of credit among all post-secondary institutions in the province, so long as this process involves faculty. (1993)

#### ENROLMENT LIMITS

- 8.1.8. FPSE promotes the following policies concerning enrolment limits for post-secondary institutions in BC:
  - (a) Access to BC universities should not be based upon which public school or post-secondary institution a BC student comes from.
  - (b) Students completing the second year of a university transfer program at a college (or the first year if an appropriate second year program is not available) should be guaranteed admission to the appropriate year of their degree program at the university of their choice (subject to the student meeting the course and academic performance requirements set by that university). This guarantee corresponds to that currently given to a university's direct entry students who can proceed to the second, third, and fourth years of their degree program so long as they meet that program's course and academic performance requirements.
  - (c) Post-secondary institutions considering policy changes should be required to inform and fully consult in advance any other institutions whose students are likely to be affected by those changes. (1986)

## 8.2. ADULT BASIC EDUCATION AND ESL PROGRAMS

### ABE/ESL FUNDING

- 8.2.1. FPSE and its locals reaffirm their commitment to existing FPSE policy regarding Adult Basic Education, English as a Second Language programming, and education equity for persons with disabilities; and FPSE and its locals will lobby the provincial government and local institutions to restore student spaces in these areas to the levels delivered in 2002/03, at minimum, and to adopt those levels as a baseline for service plans. *(2003)*
- 8.2.2. FPSE supports an equal and adequate funding level for ABE student spaces to apply in the school district and post-secondary sectors. In addition to equal and adequate funding levels, tuition charged, if any, should be equal in both sectors and each sector should have the ability to offer an uncapped number of funded ABE spaces. *(1995)*
- 8.2.3. FPSE shall lobby for funding levels of ABE/ESL courses in the post-secondary system equal to funding levels of ABE/ESL courses for adults in the public school system. *(1993)*
- 8.2.4. FPSE recommends that stable and adequate funding be provided to institutions to support quality ESL instruction as an integral part of their offerings; furthermore, enhanced and stable resources must be allocated to the post-secondary system for increased support services for adult ESL learners. *(1990)*

### PUBLIC SECTOR MANDATE

- 8.2.5. FPSE believes that government must acknowledge the special skills and knowledge required of those designing, delivering and administering ABE programs, and that government must acknowledge that there is a difference between good practice in the education of children and good practice in the education of adults. In recognition of this, FPSE recommends that government place responsibility for all Adult Basic Education programming within the ministry responsible for advanced education. *(1995)*
- 8.2.6. FPSE endorses the principle that public funds for ABE/ESL be used only by public Institutions. *(1993)*
- 8.2.7. FPSE shall intensify its lobbying efforts with the provincial government to define the post-secondary system as having the primary responsibility for the provision of ABE and adult ESL programs. *(1993)*
- 8.2.8. FPSE shall lobby the provincial government to set standards for the regulation and monitoring of all public and private institutions offering foundation programs. *(1993)*
- 8.2.9. FPSE recommends that the post-secondary system remain the primary vehicle for the delivery of programs in the areas of literacy, Adult Basic Education, and English as a Second Language. *(1990)*

STUDENT ASSISTANCE AND LOANS

- 8.2.10. FPSE recommends that all Adult Basic Education students be given access to both the Canada Student Loan Program and the BC Student Assistance Program.

*(1990)*

- 8.2.11. FPSE recommends that the Minister of Advanced Education approach the Minister of Employment, Citizenship and Immigration Canada to initiate changes in policy so that under-educated adults are encouraged to be learners without loss or reduction of employment insurance payments.

*(1990)*

**8.2.12. Literacy and Adult Basic Education**

- 8.2.12.1. FPSE recommends that stable and adequate funding be provided to institutions to support quality literacy programming. We are in full support of the recommendation of the Literacy Advisory Committee's recommendation that the funding formula for fundamental Adult Basic Education level programs be adjusted in order to further reduce instructor/student ratios.

*(1990)*

- 8.2.12.2. FPSE recommends that the Ministry of Advanced Education immediately implement those recommendations of the Literacy Advisory Committee which call for enhanced and stable resources to be allocated to the post-secondary system for increased support services for adult literacy and basic education learners.

*(1990)*

- 8.2.12.3. FPSE recommends that a policy of 'cost free' literacy education be adopted by the provincial government and that such a policy be funded at a level adequate to meet the demand. Such a policy could be implemented through such things as a combination of grants and tuition-free programs.

*(1990)*

**8.2.13. ESL Funding and Support Services**

FPSE and its locals should lobby appropriate government bodies to achieve the following goals:

- All immigrant students, permanent residents and citizens throughout the province placed anywhere in the Canadian Language Benchmarks 1-9 range should have access to tuition-free programming.
- Counseling and affordable student support services, such as childcare, transportation, and study materials, need to be readily accessible to all students.
- Governments need to fully support international students' transition to Canadian society from visa student status through to immigrant status.
- Match skills training initiatives with targeted supports for qualified technical and/or professional immigration and language training.
- The federal government needs to maintain Language Instruction for Newcomers to Canada (LINC)/English Language Services for Adults (ELSA) funding at current levels.
- Funding should not be a competitive process but based on equitable distribution according to need.
- Program delivery must be via public sector institutions or delivered at the community level.

*(2013)*

### 8.3. COMMERCIALIZATION

#### 8.3.1. Policy Statement on Commercial and Privately Funded Activities in Public Post-Secondary Education Institutions

FPSE adopts the following Policy Statement on Commercial and Privately Funded Activities in Public Post-Secondary Education Institutions; and encourages FPSE locals' boards, academic governance councils and senates to adopt the policy statement:

*The FPSE Values Statement governs the policy development and work of FPSE. This policy statement flows from principles articulated in the Values Statement.*

FPSE supports and will work towards a publicly governed post-secondary education system which is predominantly funded through public funds. FPSE is opposed to the replacement of public funding sources with private funding sources and will actively work to secure adequate public funding.

Where post-secondary education institutions opt for private funding involvement, it is imperative that private involvement be screened against guidelines that protect the integrity of public education institutions. Such guidelines should ensure that relationships with private funders do not undermine the primacy of the public interest in post-secondary education.

The term private funders is intended to cover all non-base funded activity, including self-funded courses and programs, contracts with government, non-profit and community associations, and contracts with private for-profit and commercial organizations.

FPSE recommends that governing bodies and faculty associations adopt guidelines for reviewing private funding involvement which include the elements identified below:

- (a) Need for policy and procedures to govern private funding arrangements  
All public post-secondary education institutions should develop policy and procedures to govern the involvement of private funders in all areas of the institution. These policies and procedures must be developed with the formal participation of faculty and staff unions and student associations.
- (b) Respect for existing collective agreements  
Arrangements with private funders must respect all provisions of collective agreements.
- (c) Educational integrity  
Relationships with private funders should recognize that governing bodies and faculty in post-secondary institutions are responsible for decision-making over education matters. While acknowledgement of the contributions of private funders is legitimate, it is inappropriate if it interferes with or negatively influences the intellectual atmosphere or academic freedom of the institutions. Likewise, the involvement of private funders must not undermine the ability of public post-secondary education institutions to offer a broad range of programs and services to their communities.

- (d) Accountability  
Arrangements with private funders must, without exception, be open to public scrutiny such that both internal and external stakeholders are satisfied that private interests do not compromise the educational integrity of the institution. Governing bodies should have a local mechanism in place to allow for full public transparency and accountability in an institution's dealings with all private funding bodies.
- (e) Integrity of the governance process  
Development and approval of educational programming funded through private funders must allow for appropriate involvement by academic governance councils and senates.
- (f) Ethical issues  
Institutional governing bodies should have the ability to review the activities and the record of prospective private funders and to reject a funding source if it has violated human rights or behaved unethically.
- (g) Equity and inclusiveness  
Relationships with private funders should not conflict with the social values of post-secondary education, such as support for gender equality and the recognition and value of diversity. The benefits of relationships with private funders should be distributed equitably to ensure a continued broad range of programming and services throughout the institution.
- (h) Fiscal priorities and responsibilities  
The institution's governing bodies should ensure that public resources are used for public education and are not diverted to support privately funded endeavours. Private interests or dictates should not skew the priorities of the institution.
- (i) Research  
Acceptance of private funding sources for research activities must not be tied to specific research outcomes.

*(2000)*

- 8.3.2. FPSE shall undertake to research, document and publicize the forms and extent of the commercialization of our colleges, universities, institutes and agencies.

*(1999)*

## **8.4. COMPREHENSIVE COMMUNITY COLLEGES**

- 8.4.1. FPSE recommends that, in order to ensure the comprehensiveness of all community colleges and to enhance their ability to meet local as well as provincial programming needs, adequate funding be allocated for the maintenance and expansion of all program areas (i.e., not just university transfer programs) where a need or demand has been clearly identified or where government has stated its commitment to ensure regional equality in access to a comprehensive range of programs.

*(1990)*

- 8.4.2. FPSE recommends that the expansion of core first and second year programs at colleges be undertaken in all regions of the province with the most effective instruction (given the development of evaluative criteria) as the preferred delivery mode.

*(1990)*

- 8.4.3. FPSE shall:
- (a) gather information that will assist in efforts to support the maintenance of programs in general studies, liberal arts and sciences, and related areas; and
  - (b) through any appropriate means, attempt to increase public and government support for the maintenance of such programs.

(1986)

## 8.5. COPYRIGHT/INTELLECTUAL PROPERTY

- 8.5.1. FPSE will promote revisions to the *Copyright Act* that support user rights of copyrighted material, such as print, audiovisual and digital information for educational use. FPSE supports an expanded definition of “fair dealing” that includes all teaching and learning activities:
- Educators want and need an expanded definition of “fair dealing” so that teaching and learning, not just “private study”, are included in the definition of “fair dealing”, building on the Supreme Court of Canada.
  - Educators want and need copyright reforms that do not unduly restrict access to digital materials through digital rights management.

FPSE will work with other like-minded bodies, such as the Canadian Federation of Students, Association of University and Colleges of Canada, CAUT and the Canadian Library Association, to advocate for copyright reform that is favorable to education in all areas of copyright law, including but not limited to digital rights management, internet use in education, and the use of audio-visual content in education. (2007)

## 8.6. DEGREE COMPLETION

- 8.6.1. FPSE supports the current degree-granting process which approves the right to grant a specific degree to any public post-secondary institution with granting rights coming from the degree approval process. (1995, 2013)

- 8.6.2. University-Colleges  
See Appendix A, FPSE Position on Degree Completion Programs at BC Colleges.

### 8.6.3. Post-Secondary Education Mandate Statement

BC's public post-secondary institutions shall offer a unique and socially responsive mode of education; a community-based teaching institution committed to life-long learning in continuing education, developmental, career, technical, vocational and academic programs. It shall combine in one institution the comprehensive range of programs found in British Columbia's community colleges with the provision of recognized degree programs. In accordance with the powers designated under provincial post-secondary education legislation, post-secondary institutions shall have the authority to grant certificates, diplomas and degrees in their own names. Responsive to regional educational needs, post-secondary institutions shall provide access to courses and programs leading to a certificate, diploma and degree in a manner that increases educational opportunities for all British Columbians. Community oriented, high quality programs sustained by the provision of appropriate learning resources and student support services will be offered in all areas of the institution's region. Excellence in teaching and learning shall be maintained by the provision of appropriate educational facilities and by faculty engaged in continuing professional development and in scholarly activity.

Representative decision-making bodies shall safeguard the academic and financial integrity of the institution.

As a provincial resource base from which to promote the educational, economic, social and cultural development of the community and region, post-secondary institutions shall offer a balance of traditional programs with an opportunity for innovative and integrative programs designed to maximize the practical, intellectual and professional skills of all the students they serve.

*(1993, 1989)*

#### **8.6.4. University of Northern BC**

8.6.4.1. Prior to the establishment of a new university in this province, there should be a thorough review and assessment of the alternative of expanding degree-completion programs in existing agencies, colleges, institutes and university-colleges. *(1993)*

8.6.4.2. FPSE recommends that, in order to maximize access to university level education, the College of New Caledonia, Northern Lights College and Northwest Community College retain all existing first and second year university transfer programs.

FPSE recommends that to the extent that university transfer courses are moved to the UNBC, that college faculty and staff shall be moved with their course work if they so choose.

FPSE further recommends that there be a cooperative, integrated plan developed between the College of New Caledonia, Northern Lights College and Northwest Community College and the UNBC to maintain the integrity of the community colleges. In consultation with the involved locals, FPSE shall work toward facilitating a university-college relationship between the University of Northern British Columbia and CNC, NWCC, Northern Lights, and the Open Learning Agency. The introduction of degree-completion courses in the regions should not displace current faculty, nor should it be reliant on the use of faculty outside of the bargaining units for work for which current local faculty are qualified.

FPSE recommends that, in order to facilitate the transfer of faculty, opportunities to upgrade qualification be supported through special funding from the Ministry of Advanced Education.

FPSE recommends that the Council on Admissions and Transfer carefully monitor and publicly report on changes resulting from the introduction of university-colleges and the creation of UNBC. This review shall include but not be limited to: changes in enrolment patterns which include an assessment of target groups such as natives, women and the disabled; the introduction of quotas and caps; changes in admissions criteria, and the impact of financial aid programs on transfers.

*(1989, 1993)*

### **8.7. DISTANCE EDUCATION AND OPEN LEARNING**

FPSE and its member associations shall continue to monitor and document the expansion of distance education in the province. While recognizing the valuable role which distance

education plays as part of the post-secondary educational system in BC, FPSE continues to oppose attempts to replace face-to-face instruction with distance education courses.

*(1989)*

## **8.8. EDUCATION EQUITY**

FPSE shall increase its activity, through a Human Rights Committee if necessary, in favour of equity in the education and employment of First Nations people, other visible minorities, and people with disabilities at all levels of the post-secondary system.

*(1988)*

### **8.8.1. Persons with Disabilities**

FPSE recommends that the specific needs of the physically and learning disabled should be addressed through a variety of measures including: increased levels of financial support; ensuring that campuses are physically accessible and have proper equipment; offering specialized counselling services; offering awareness programs for students and staff; and support for specially trained staff.

FPSE recommends that the learning disabled be given access to special programs such as pre-employment and social and life skills classes.

FPSE recommends that the provincial government recognize and meet the increased cost to institutions of implementing these recommendations.

*(1990)*

### **8.8.2. Seniors**

FPSE recommends that the Ministry of Advanced Education provide funding for institutions to liaise with seniors' groups in order to identify and eliminate barriers to the participation of seniors in post-secondary education.

*(1990)*

### **8.8.3. Visible Minorities**

FPSE recommends that there be an active program to promote cultural and linguistic tolerance within the post-secondary system and that workshops, lectures and displays be encouraged and funded by the provincial government to this end.

FPSE recommends that, within the parameters of accepted academic standards, the hiring and admissions policies of post-secondary institutions should at the very least reflect the demographic breakdown of under-represented groups within the larger community.

FPSE recommends that post-secondary institutions actively solicit input from minority groups on campus with regard to their needs and concerns.

*(1990)*

### **8.8.4. Women's Issues**

8.8.4.1. FPSE shall actively promote gender equality in counselling services and the enhancement of counselling services or referrals to meet the specific needs of women.

*(1990)*

GENDER BALANCED ENROLMENT IN COLLEGE PROGRAMS

- 8.8.4.2. FPSE recommends that the Ministries of Education and Advanced Education enhance and promote financial assistance programs, outreach programs, counselling services, and bridging, remedial and other programs designed to increase women's participation in all areas of advanced education and training.

FPSE recommends that every post-secondary institution have both female and male counsellors to help ensure that the specific needs of female students are met, both through counselling and referrals. (1990)

- 8.8.4.3. FPSE shall lobby for increased opportunities for women to participate in educational programs in non-traditional areas. FPSE shall lobby provincial and federal departments to that end, while local Status of Women Committees should work within their respective institutions and each local Status of Women Committee shall be strongly encouraged to take part in this lobby effort. (1988)

## 8.9. EDUCATIONAL TECHNOLOGY

### 8.9.1. Principles on Educational Technology and Distributed Learning

#### (a) Reasons for implementing distributed learning

There must be compelling educational reasons for implementing distributed learning. Distributed learning must focus on quality education and contribute to a system that promotes life-long learning. Distributed learning may be considered as an exclusive method of delivery only in instances where instruction cannot otherwise take place.

#### (b) Reasons for implementing educational technologies

Educational technologies are intended to improve access for students who are otherwise barred from traditional modes of delivery (special needs students, issues of limited access).

#### (c) Financial support/resources

The institution must commit to additional and distinct resources for distributed learning and educational technologies. These resources must include adequate development and infrastructure costs for effective educational technologies, provision and maintenance of up-to-date hardware and software, and adequate training and support for educators.

#### (d) Distributed learning limited by considerations of meaningful pedagogy

Distributed learning and educational technologies must be supported by appropriate instructional design in an environment of adequate support. The faculty in the subject or program in which distributed learning and educational technologies are contemplated must agree that such developments are appropriate, through appropriate departmental / program structures at the local institutional level.

#### (e) Faculty determination and control of curriculum

Development and implementation of distributed learning and educational technologies shall in no way limit or impair faculty determination and control of curriculum.

**(f) Multifaceted instructor role**

Distributed learning and educational technologies shall not be used to dissect instructional roles into separate components. Course delivery, facilitation of learning, tutoring / learning support, and evaluation shall be undifferentiated within an instructional role.

**(g) Privacy protection**

Educational technologies shall be implemented only where it can be demonstrated, through mutual agreement of the bargaining unit(s) and employer, that such technologies do not contribute to workforce reduction.

**(h) Job security**

Educational technologies shall be implemented only where it can be demonstrated, through mutual agreement of the bargaining unit(s) and employer, that such technologies do not contribute to workforce reduction.

*(2000)*

**EDUCATIONAL TECHNOLOGY & DISTRIBUTED LEARNING AS ENHANCEMENTS**

8.9.2. FPSE endorses the principle that the development and delivery of distributed learning and educational technologies in the post-secondary system will neither diminish nor replace faculty roles, duties, qualifications, or responsibilities.

8.9.3. FPSE supports applications of educational technology that adhere to FPSE's Statement of Values and that enhance student access and choice within the framework of a broad and comprehensive range of site-based learning opportunities.  
*(1999)*

8.9.4. FPSE supports applications of educational technology to enhance the quality of student learning.  
*(1999)*

**FUNDING**

8.9.5. FPSE shall lobby for adequate additional Ministry funding for applications of educational technology.  
*(1999)*

**JOINT DETERMINATION**

8.9.6. FPSE shall lobby for joint determination and implementation of educational technology initiatives at the provincial and local levels.  
*(1999)*

8.9.7. FPSE locals shall encourage academic governance councils and senates to consider the appropriateness and the effect of the mode of delivery (e.g., traditional face-to-face, on-line, interactive television, blended classrooms, etc.) or a change in the mode of delivery as part of the course and program approval process.  
*(1998)*

**8.10. FIRST NATIONS PEOPLES**

8.10.1. FPSE encourages locals to promote First Nations peoples' scholarship, including the use of texts and resources, in all areas of the curriculum.  
*(2000)*

8.10.2. FPSE shall lobby for funding for research and recordings of First Nations' experience for the post-secondary system. (2000)

8.10.3. FPSE shall lobby for enhanced and assured funding for First Nations' Resource Centres in all BC post-secondary institutions. (1999)

8.10.4. FPSE shall lobby for the development of education resources to expand the profile of aboriginal history and culture. (1999)

8.10.5. FPSE recommends that counsellors and instructors who are knowledgeable regarding the needs of the First Nations community be brought into the post-secondary system. FPSE further recommends that professional development opportunities which sensitize and inform faculty, staff and management about First Nations community needs and culture be made available and be adequately funded.

FPSE recommends that programs whose content and structure are relevant to First Nations communities be introduced into the post-secondary system.

FPSE recommends that government decisions as to funding levels and allocation for First Nations post-secondary education be done in conjunction with representatives of First Nations communities.

FPSE recommends that adequate funding levels must be allocated for the implementation of the above recommendations. (1990)

8.10.6. FPSE supports the inherent and collective rights of Indigenous peoples to rights of sovereignty and self-determination, and the Truth and Reconciliation Committee's Calls to Action, especially through supporting the development and implementation of education on Indigenous themes for students at their members' post-secondary educational institutions. (2016, 2017)

#### **BC Aboriginal Inclusion and Pedagogy**

8.10.6.1. FPSE recommends dedicated funding that promotes access and program completion for Aboriginal students at BC's post-secondary institutions. (2013)

8.10.6.2. FPSE recommends the inclusion and integration of Aboriginal philosophy and pedagogy. (2013)

### **8.11. FUNDING OF POST-SECONDARY EDUCATION AND TRAINING**

#### **8.11.1. Provincial Funding**

##### EDUCATIONAL TECHNOLOGY

8.11.1.1. FPSE shall lobby for adequate additional Ministry funding for applications of educational technology. (1999)

##### LOBBYING GOALS

8.11.1.2. FPSE shall lobby in support of independent, comprehensive institutions and oppose any attempts at rationalization or hostile mergers of existing institutions. (2006)

8.11.1.3. FPSE shall maintain a strong and united lobby of the provincial government, asking for a commitment to fund fully the post-secondary education system so as to achieve compensation and pay equity for all members. (1998)

8.11.1.4. In light of the large number of students turned away from each institution in the post-secondary system in this province, FPSE shall continue to lobby for additional FTEs in the post-secondary system and for these FTEs to be fully funded. (1993)

8.11.1.5. FPSE shall develop strategies that will:

- (a) maintain and develop the publicly-funded profile of community college programs;
- (b) ensure equitable access to publicly-funded programs for all students, including students who require access to part-time or short-term studies;
- (c) encourage the organization of continuing education instructors;
- (d) encourage the inclusion of programs in each FPSE local;
- (e) restore Ministry revenue to fund continuing education as an integral component of the community college profile;
- (f) oppose the privatization of community college offerings through the activities of Labour Force Development Boards.

(1992)

8.11.1.6. FPSE recommends that the post-secondary funding formula be amended to recognize the real costs of providing adequate levels of instruction and support services regardless of where the institution is located or how the institution is structured.

FPSE further recommends that adequate core funds should be available to the post-secondary system and should be allocated in the form of base funding. The annual base funding for the post-secondary system must be adjusted for inflation and that adjusted base must be guaranteed for a minimum of two years. Such funding should not be eroded by special funds or restricted to designated purposes.

FPSE recommends that the Ministry of Advanced Education significantly increase funding for capital expenditures for the purposes of maintaining quality and of maintaining the currency of existing programs in post-secondary institutions.

FPSE recommends that the Ministry of Advanced Education allocate capital and operating funds to post-secondary institutions in an integrated manner and that they be distributed using a mechanism that is fair and equitable. (1990)

8.11.1.7. FPSE will include in its advocacy a return to fully-funded programming at levels commensurate with student demand and without reliance on student fees. (PC 2016)

#### MULTI-YEAR FUNDING

8.11.1.8. FPSE endorses multi-year funding in principle, and endorses a concept and policy based on:

- (a) restoration of core funding;
  - (b) funds sufficient to establish fair and equitable salaries, terms and conditions of work, including improvements for non-regular faculty.
- (1992, 1993)*

#### SCHOLARLY ACTIVITY

- 8.11.1.9. FPSE shall lobby the Ministry to have designated funds for scholarly activity in its broadest form specifically recognized in the new funding formula.
- (1999)*

#### STUDENT & INSTRUCTIONAL SUPPORT

- 8.11.1.10. FPSE shall lobby the provincial government to increase post-secondary funding for violence prevention education, campus security and support services, including professional counselling.
- (1999)*
- 8.11.1.11. FPSE shall work to ensure that identified standards for student and instructional support, including counselling, library services and information technology, are included in any new funding mechanisms.
- (1999)*

#### DEGREE PROGRAM FUNDING

- 8.11.1.12. FPSE shall intensify its lobbying of government and the Ministry to ensure adequate funding for new degree program development and maintenance, as well as access to degree programs for students and scholarly activity.
- (1999, 2013)*

#### CO-OP PROGRAMS

- 8.11.1.13. FPSE shall lobby the government for base funding for co-op programs.
- (1991)*

### **8.11.2. Federal Funding**

#### FEDERAL FUNDING PRINCIPLES

- 8.11.2.1. FPSE recommends that post-secondary education and research remain a shared responsibility of the federal government and the provinces through continued transfer payments to the provinces and through the funding by the federal government of programs which it sponsors.

FPSE recommends the following as possible vehicles for federal funding:

- (a) Reformed fiscal transfer program:  
The preferred method of implementing the federal role in post-secondary education is through a revision of the current financing arrangements as follows:
  - that the federal government substantially increase its funding support for post-secondary education and, as an incentive for provincial governments to enhance the funding of post-secondary education, the funding formula be changed to provide supplemental federal funding to provinces which maintain or increase their share of the total funding for post-secondary education;

- that the federal cash contributions to the provinces in respect of the cost of post-secondary education services shall be used solely for post-secondary education;
- that there be created a Standing Committee of the House of Commons on Science, Research and the Financing of Post-Secondary Education which, *inter alia*, would oversee these arrangements and ensure that these funds are expended by the province for the purposes indicated;
- that there be a tripartite, independent advisory council created by the federal and provincial governments and the post-secondary education community, to advise both levels of government on matters affecting post-secondary education;
- that there be established a post-secondary education advisory council which shall provide informed advice to the Minister in relation to matters affecting post-secondary education.

(b) Cost-sharing arrangements:

In the event that the federal government and the provinces cannot agree on a revitalized financing program, the FPSE recommends that Ottawa and the provinces revert to the cost-sharing arrangements that existed before the creation of EPF in 1977 and which provided special funding arrangements for provinces who would otherwise have been the losers in such arrangements.

(c) Federally-financed programs:

The federal government should finance the following programs:

1. to substantially improve the funding of student assistance programs including part-time and full-time, undergraduate, graduate, developmental education, vocational training, aboriginal and non-aboriginal students and to devise a coherent international student program;
2. to increase the funding of post-secondary research programs including funding that supports national standards for research integrity and ethics;
3. to integrate and to substantially increase the financial support given by NSERC and SSHRCC for small universities, community colleges and institutes which should be in the form of a block grant for the purposes of financing scientific equipment, computers, computer programs and programming, and library resources and small operating grants;
4. to create and fund a program for the support of academic libraries of post-secondary educational institutions;
5. to fund educational equity programs;
6. to fund community outreach programs at public post-secondary institutions;
7. to fund capital and maintenance programs

The above programs will be financed based on ongoing cost of living.

(d) New federal programs

If the federal government institutes new programs in post-secondary education and research, it will pay the full direct costs of the program, as well as indirect and student support costs.

## (e) Federal institutions

There are a number of federal institutions and organizations which are vital to the academic community because they provide essential services and/or because they are an integral part of the scholarly and research work of the post-secondary education community.

FPSE recommends that structures and institutions such as Statistics Canada, the National Library, the Canadian Institute for Scientific and Technical Information (CISTI), the National Archives, and the national museums and cultural institutions should be maintained and developed.

Federal government departments must retain the rights to undertake research and to contract this research, where appropriate, to universities, institutes, colleges and aboriginal organizations. FPSE believes that federal laboratories and research institutes and programs should be encouraged to have working links with post-secondary education.

*(1992, 2013)*

#### NATIONAL EDUCATION STRATEGY & PRINCIPLES

8.11.2.2. FPSE recommends the establishment of a national education strategy which would improve the funding and delivery of post-secondary education.

8.11.2.3. FPSE will lobby the federal government to increase funding for post-secondary education and encourages the federal government to work with education stakeholders to develop a national agenda for post-secondary education in Canada.

8.11.2.4. FPSE reaffirms its policy that the federal government should maintain an explicit federal presence in the funding of post-secondary education and should increase post-secondary education funding.

FPSE urges the federal government to create a stable funding mechanism which designates separately the funds for health, post-secondary education and social assistance.

*(1995, 2013)*

#### PROVINCIAL ACCOUNTABILITY

8.11.2.5. FPSE endorses the principle of full transfer of the federal government education contributions and demands that the federal government set up procedures that would result in provincial accountability and sanctions against those provinces that did not adequately account for monies received.

*(1985)*

### **8.11.3. Labour Market Training Programs**

*(1990, 2013)*

### **8.13. GOVERNANCE**

#### **8.13.1. Educational Governance**

##### EDUCATIONAL GOVERNANCE PRINCIPLES

8.13.1.1. FPSE holds that:

- Educational governance must be vested in faculty.
- Since the primary mechanisms of educational governance are academic governance councils, which include senates and education councils, their composition must include faculty members as a majority.
- Academic governance councils and senates must have sole authority over educational matters.
- Academic governance councils and senates must use academic freedom as a guiding principle.
- Elected faculty members of academic governance councils and senates must to the fullest extent possible inform and consult those who have elected them.

*(1989, 2004, 2013)*

##### COMPOSITION

8.13.1.2. FPSE will lobby for the inclusion of locally elected community representatives on boards of governance. *(2004)*

- 8.13.1.3. FPSE supports ex officio representation of faculty associations on academic governance councils and senates. *(1995)*

#### ELECTIONS

- 8.13.1.4. FPSE encourages locals to consult with registrars to ensure timely, effective elections for boards of governance and academic governance councils and, furthermore, to ensure that the composition of councils reflects the geographic distribution of programs at institutions and provides for representation of program and education support areas. *(2004)*

#### FUNDING

- 8.13.1.5. FPSE will lobby for the governance work of faculty representatives on boards of governance and academic governance councils to be assigned paid release.

#### TRAINING & COMMUNICATIONS

### **8.13.2. Attacks on Educational Governance**

FPSE condemns the provisions of Bill 18-2011 that strip our members of their freedom of association rights, and will mobilize support by working with the CAUT to challenge the constitutionality of Bill 18, and work to build opposition to Bill 18 by working in solidarity with other post-secondary education unions and the broader labour movement in BC and across Canada to denounce the injustice of this legislative attack on the rights of our members to participate fully in the governance of their local institution. *(2012)*

### **8.13.3. Program Advisory Committees**

The following resolution on Program Advisory Committees shall be FPSE policy:

All Program Advisory Committees should be characterized as follows:

- (a) The Program Advisory Committee's mandate, membership, and reporting relationship should be constituted by bylaws of boards and the relevant Act.
- (b) The Program Advisory Committee's mandate should be consistent with its status as a committee to advise the board in matters of education policy and governance of the institution. The board's exclusive prerogatives to deal with

matters relating to their status as employer of record and owners of real property is recognized.

The representatives of faculty, students, staff should be elected by their respective representative organizations and the Chair of the committee should be elected by and from within that committee.
- (e) The Program Advisory Committee should report directly to the board through its duly elected Chair.
- (f) Rules of conduct and terms of reference should be established for orderly conduct of the committee's affairs.
- (g) Committees relevant to the mandate of the Program Advisory Committee should report to that committee.

*(1983)*

## **8.14. INTERNATIONAL EDUCATION**

Increasing the number of international students at any post-secondary institution should not reduce the number of seats allocated to domestic students nor infringe their access to specific programs at their institution. Further, appropriate and comprehensive services should be available to all students irrespective of origin or socio-economic status. These services include: counselling, learning resources and services, orientation, and life skills and/or adaptation assistance.

*(1999)*

## **8.15. MEDIA EDUCATION**

FPSE shall ask locals to encourage academic governance councils and senates to develop media education and to liaise with the BC Teachers' Federation to develop media education programs.

*(1999)*

## **8.16. PART-TIME STUDENTS**

*(1990)*

## **8.17. PERFORMANCE AND QUALITY INDICATORS/ACCOUNTABILITY**

### **8.17.1. Accountability**

FPSE shall participate as one of the system partners involved in the development, design and implementation of any accountability measures intended for use in the post-secondary education system.

*(PC 1996)*

### **8.17.2. Program Quality**

FPSE recommends that in the interest of ensuring quality as part of the system's expansion, a comprehensive approach to developing an index of "quality indicators" be taken. Once such an index has been developed, it should be monitored regularly,

and this information be made public in a timely fashion. The index of quality indicators should include but not be limited to the following:

#### TERMINAL OBJECTIVES

(Criteria to meet objectives of participants or users)

- Entry and completion rates;
- ratios of students to instructors, support staff, counsellors, librarians and financial awards officers;
- external criteria, e.g., employment rates for graduates, employer satisfaction with graduates, follow-up studies on job placement and advancement;
- ratios of students to learning assistance facilities, e.g., computers, laboratory spaces, microscopes, library spaces and books;
- library facilities and portion of operating budget spent on library acquisitions.

#### STRUCTURAL/INSTITUTIONAL OBJECTIVES

(Criteria in the structure of the delivery of services)

- Faculty participation in faculty development activities in both discipline-based and instruction-based components;
- ability of institutions to hire qualified, competent faculty;
- the learning environment \* space, facilities, respect for facilities, access for disabled, etc.;
- level of satisfaction with the education given and received by instructors and students respectively;
- the morale of instructors and students;
- the degree and level of assistance for improving instructional skills for instructors and study, writing and learning skills for students.

FPSE further recommends that catch-up studies to identify gaps in services and inequities between programs on campus be undertaken on campuses.

(1990)

## 8.18. PHYSICAL SECURITY

(1999)

## 8.19. PRIVATIZATION AND PRIVATE SECTOR EDUCATION

(2000)

(1993)

8.19.4. Regularization of Private Training Institutions

FPSE recommends that the regulation, accreditation and monitoring of private training institutions be overseen directly by the Ministry of Advanced Education and

that the branch responsible for such functions be given adequate funding and staffing.

FPSE recommends that, as part of its mandate to ensure quality educational opportunities for all students in the province, the Ministry of Advanced Education require some form of mandatory accreditation for all private training institutions and that the operations of such institutions be monitored on a regular basis.

*(1990)*

## **8.20. PRIOR LEARNING ASSESSMENT**

8.20.1. FPSE recommends that all Prior Learning Assessment (PLA) work be integrated into faculty workloads and not be paid on a piece-work or overload basis and, further, that both PLA advising and assessing work should be done only by faculty. *(1997)*

8.20.2. FPSE accepts the following principles concerning contractual workload implications of Prior Learning Assessment (PLA):

- (a) PLA work will be recognized as and integrated into faculty workloads.
- (b) PLA work includes classroom based and individual advising; classroom based and individual assessment; training and upgrading. The determination of workload shall include:
  - (i) average number of hours required for PLA work by [program] in each [department];
  - (ii) regular workload in each program and/or department as defined by the collective agreement.
- (c) There will be a local Joint Committee (labour management) to examine and to recommend a means of averaging workload by:
  - (i) reducing the number of students in the same or subsequent semester, course, year;
  - (ii) reducing the number of courses in the same or subsequent semester, course, year;
  - (iii) reducing other accountable time.
- (d) The employer will provide adequate paid time for training for faculty in PLA work.
- (e) PLA work is voluntary, and faculty will not be assigned PLA work. The work should be shared as widely as possible within one department or program among those with the interest and expertise, and not necessarily on a seniority basis. Further, wherever possible, preference for this work should be given to those who have less than a full-time workload.
- (f) The employer shall count PLA work as part of regular workload for purposes of pay, benefits, and seniority.

*(1997)*

## **8.21. STUDENT FINANCIAL ASSISTANCE**

8.21.1. FPSE shall lobby the provincial government to leave college Adult Basic Education Student Assistance Program allocations at current levels in order to assist financially needy students with child care and other support costs. *(1998)*

8.21.2. FPSE rejects income contingent repayment loans because they are inextricably linked with very high tuition fee levels, high debt-loads for students and higher educational costs for women and low-income students who take longer to repay. *(1995)*

- 8.21.3. FPSE shall lobby for changes to increase financial aid for students enrolling in one or more courses on a part-time basis. (1990)

## 8.22. STUDENT SERVICES

- 8.22.1. FPSE recommends that, in conjunction with the BC Post-Secondary Counsellors' Association, the Ministry of Advanced Education develop and work toward a plan to increase counselling and advising services in the post-secondary institutions. (1990)

## 8.23. TRADES AND APPRENTICESHIP TRAINING

- 8.23.1. FPSE Policy Statement on Trades and Apprenticeship Training

FPSE shall advocate for and shall encourage locals to advocate for:

- (a) The continued establishment of trades and apprenticeship training in the public post-secondary institutions of BC, which shall continue to be the trainer of choice for these programs.
- (b) The inclusion of post-secondary faculty union representatives in the governance structures of any agency set up to administer trades and apprenticeship training and for the inclusion of the representatives of the broader labour movement.
- (c) A greater role for the Ministry of Advanced Education and public post-secondary institutions in governance of trades and apprenticeship training.
- (d) Respect for the shared governance of curriculum by government, institutions and faculty.
- (e) Adequate funding of curriculum development, capital costs, counseling services, and registration support.

- (g) New investments for improved access for all and especially for access support for under-represented groups of trainees, including women, First Nations peoples, visible minorities, and those with disabilities.
- (h) As with all faculty, the concept of academic freedom be deemed to include the right of trades instructors to have choice and freedom of expression on pedagogical issues.
- (i) The maintenance and support of the inter-provincial Red Seal trades designation as the Canadian standard and recognition of the Red Seal by provincial institutions for the purpose of bridging to further studies.
- (j) The Red Seal designation be deemed the equivalent of at least a Bachelor's degree for the purposes of placement and step advancement.
- (k) The continuation of foundation level trades training within the public post-secondary institutions.

(2008)

## **8.24. TRAINING INITIATIVES**

### **8.24.1. Human and Employment Rights in Curriculum**

- (b) Employment Standards;
- (c) Occupational Health and Safety; and
- (d) Labour Codes.

*(1998)*

## **8.25. WEEKEND COURSES**

FPSE recommends that, if flexible scheduling is to be introduced in a manner which is not disruptive to the members of the post-secondary community, it must be accompanied by adequate planning and funding to ensure that students can achieve the desired course load and obtain required courses within the framework of a reasonable schedule and that educators and other staff can work within a reasonable schedule which is not disruptive to their professional or personal lives.

*(1990)*

## 9. INTERNATIONAL AFFAIRS

### 9.1. INTERNATIONAL SOLIDARITY FUND

#### Terms of Reference

#### OVERVIEW AND MOTIVATION

The attention of informed union members has been drawn increasingly to human problems that are international in scope and nature. Problems like the scourge of global poverty and hunger, a global education deficit that sees more than 120 million children without basic schooling, climate change and resource depletion, and a rise in energy and resource-related warfare. At the same time, unions have become increasingly active in opposing coercive global trade agreements, in protesting the economic and political injustices of pro-corporate institutions like the World Bank, the IMF and the WTO, and in supporting the global peace movement. Capital flight to third world sweatshops and a shifting global division of labour have shown us that our interests are bound up with those of workers in the economically disadvantaged world. The maxim 'what we desire for ourselves, we wish for all' has come to have a new meaning. This new awareness calls on us to develop a new, global understanding of human rights and a new solidarity paradigm.

In May 2001, the FPSE (then CIEA) AGM adopted new terms of reference for the Federation's Human Rights Committee. The committee was re-named the Human Rights and International Solidarity Committee (HRISC) and was mandated to advise the Federation on international solidarity issues and to assist it in implementing related policies and actions. Subsequently, the committee has recognized a need for a more deliberate, policy-based approach to solidarity work.

FPSE is not alone. Other unions in BC are seeking to engage global solidarity issues more effectively. The British Columbia Government and Service Employees Union, the BC division of the Canadian Union of Public Employees, and the British Columbia Teachers' Federation have put their international solidarity work on a more systematic footing. To that end, these unions have established international solidarity funds. These funds give recognition to the need to plan for stable, long-term solidarity relationships.

At the May 2006 AGM, the HRISC proposed and got approval in principle for the development of an FPSE international solidarity fund. At its November 2006 meeting, following an educational session on solidarity funds, HRISC struck a sub-committee to prepare a solidarity fund proposal. That proposal, amended and endorsed by the HRISC, is set out below.

#### FUND SOURCE

The fund will be 1.25 per cent of the annual dues of the previous fiscal year. Fundraising activities at the local or provincial level may supplement the fund.

#### FUND GOVERNANCE

An International Solidarity Fund Committee (ISFC), comprising the Secretary-Treasurer, two members elected by the Human Rights & International Solidarity Committee (HRISC), and two Presidents' Council members, will make decisions on fund disbursements. Knowledge of human rights and international solidarity issues would be an asset for appointees to the ISFC.

International Solidarity Fund Committee members will be annually appointed by HRISC and Presidents' Council. Appointing bodies will consider continuity when making appointments.

Funding proposals may be initiated by any member local or Presidents' Council, Executive Committee or ISFC member. There will be a 45-day period between the call for proposals and the deadline for their receipt.

Disbursements of greater than \$7000 will be subject to approval by Presidents' Council. All disbursements will be itemized and reported to Presidents' Council and HRISC at each meeting.

#### BASIC OUTLOOK

The fund rests on the belief that we share experiences, needs and values with all members of the global community. We affirm that what we desire for ourselves, we wish for all others around the world.

International solidarity partnerships should be a two-way street. This means that while we can assist others in their local struggles for a decent life, respect and dignity, they can help us to understand better both our own situation and the consequences elsewhere of institutions and policies rooted in our own society.

International solidarity partnerships, as distinct from traditional charity efforts, stress linking to and supporting popular organizations working to advance human rights.

Understanding the human rights initiatives of others can place our own experiences and struggles in a broader perspective, one that allows us to see what our struggles have in common with others.

The right to an education is a gateway right, a right fundamental to the promotion of other human rights and to the promotion of well-being and dignity.

#### OBJECTIVES

The fund:

- promotes international solidarity projects and actions that support disadvantaged people organizing to realize their basic human rights, projects informed by the values of equality, respect, human dignity and social justice;
- supports the development of solidarity relationships that are appropriately enduring and stable;
- promotes building relationships with others seeking to advance the basic human right to education;
- promotes awareness of policies or institutions in economically advantaged countries like Canada and the US that foster human rights violations in other countries;
- seeks to inform and enliven the work of our locals and our Federation by encouraging our members to work in the disadvantaged world and by supporting our partners there to represent their work at FPSE meetings and functions;
- considers project continuity and prior relationship with FPSE as a way of providing sustained support ensuring a long-lasting, stable partnership.

#### ACTIVITIES

The fund will support projects and actions in economically disadvantaged countries that:

- advance human rights, educators' initiatives, workers' rights, labour organizations and community development;
- have long term scope and the potential to establish a longstanding funding relationship with FPSE;

- advance the right to a publicly-funded education;
- oppose neo-liberal privatization and cuts in education;
- allow individual FPSE members to work directly in support of human rights;
- allow our partners in local communities to represent their work at FPSE meetings and functions;
- collaborate with other labour organizations in BC and Canada for agreed solidarity objectives;
- promote member education about social and economic conditions and popular efforts toward social justice;
- promote and strengthen our members' abilities to teach about global justice issues;
- advocate to ensure a role for Canada in meeting the objectives of the ISF.

The fund will also support projects and actions that:

- increase awareness of policies or institutions that violate the human rights of people in economically disadvantaged countries;
- assist organizations with people that work in economically disadvantaged regions in Canada and the United States.

The fund will not support travel or administrative costs.

## APPENDIX A: FPSE Position on Degree Completion Programs at BC Colleges (University-Colleges)

### FPSE POSITION ON DEGREE COMPLETION PROGRAMS AT BC COLLEGES:

FPSE is supportive of efforts to improve access to degree-completion programs at BC colleges and institutions and, indeed, efforts to improve access to degree-completion throughout the province. However, such developments must not ignore the rights of organized faculty and the integrity of the colleges as institutions.

### DEGREE COMPLETION: DECISION-MAKING

FPSE recommends that college and institute faculty involvement be solicited and enabled in the conceptualization and planning stages, as well as in the implementation of any new programs or institutions designed to expand capacity and/or access to degree completion.

### REGIONAL EXPANSION

FPSE believes that there shall be no separate “university component” within the college system. The involvement of universities and opportunities for degree completion must be integrated into the existing structures and working processes of colleges and their employees. Fragmentation of student, faculty, or administrative groups, or library and counselling resources, is not acceptable as it does not promote a rich educational opportunity for students.

Student opportunities for traditional lecture, seminar, laboratory, library and counselling services must remain the priority in education. The expansion in colleges to allow for degree-completion opportunities must not emphasize seat allocation based on electronic and tutor-assisted distance education methods of delivery, nor can it emphasize provincial electronic components in delivery of counselling services.

FPSE asserts that degree programs shall be offered only on the condition that adequate additional funds be designated for this purpose. No reduction in funding of present programs is acceptable. Designated funding for degree-completion must give priority to traditional lecture, seminar and laboratory methods. In addition, there must be recognition in funding for methods of instruction that are different from traditional university formats and that recognize the uniqueness of the university-colleges and their programs.

An important obligation of FPSE is to protect the salary and working conditions of its members. To that end, this union of faculty members asserts that if inclusion of degree-completion programs at the colleges is to be accepted by FPSE, then extant benefits (including pension), working conditions and job security for current and prospective members of FPSE must not be threatened by such developments. FPSE believes that union representation and access to protection and remedies under collective agreements has contributed to the excellence of education in this province's colleges and institutes. It resolves to maintain access to the provisions of the *Labour Relations Code* for educators in university-colleges and other new degree-granting institutions.

FPSE advocates modification of the *College and Institute Act* to accommodate the new mandate of university-colleges. These modifications shall include (but not be restricted to) the following in the university-colleges and the colleges and institutes:

- (a) reduce the powers of the Minister in the current *College and Institute Act* to a level similar to the *University Act* (46.1: the Minister shall not interfere in the exercise of powers conferred on various subgroups);

- (b) enhance the power of faculty control over all academic matters;
- (c) create provisions for a senate-like body for representative authority over academic governance;
- (d) create a university-college or college/institute board consistent with FPSE policy on boards; and
- (e) retain powers of employees to form trade unions.

FPSE believes that a mode of governance different from the current mode outlined under the *College and Institute Act* needs to be put in place for the degree-completion colleges and community colleges and institutes.

Where third and fourth-year courses are offered at the colleges, the colleges must be the employers of those involved in such courses and the FPSE locals must be the certified bargaining agents for the employees functioning in a manner similar to functions for which the local unions are currently certified to represent.

Further, FPSE will oppose the offering of university courses and services by individuals outside of the bargaining units. The traditional "open door" access policy of community colleges shall be maintained, and the introduction of degree-completion programs shall not be accompanied by changes in entrance requirements for first and second year.

Student services, such as counselling, advising and financial assistance, shall be expanded to meet additional demand resulting from the introduction of degree-completion programs.

## **THE NATURE, MISSION AND PHILOSOPHY OF UNIVERSITY-COLLEGES**

University-colleges are comprehensive, community-based teaching institutions committed to providing quality academic, career, technical and vocational programs supported by the necessary and appropriate scholarly activity and professional development.

The university-colleges will be especially responsive to the communities which they serve. This promotes development of unique regional and institutional strengths across the province.

Programs are expected to be primarily undergraduate programs. Reproduction of traditional, extensive graduate research programs is not advocated. This emphasis on undergraduate programs facilitates emphasis on teaching over research. At the same time, the development of a minority number of graduate programs designed to serve the needs of the community (such as nursing, social work, education) is of interest to some locals. It is important, however, that these graduate programs be determined on the basis of both community need and emphasis on teaching.

While university-colleges shall have as their primary emphasis teaching and learning, this emphasis must be supported by professional development and scholarly activity adequate and appropriate to establish and promote both teaching excellence and academic credibility.

## **SCHOLARLY ACTIVITY**

Scholarly activity must be available to all faculty in the local. This activity must be defined carefully and bargained locally by locals.

Scholarly activity is to be recognized as an optional component of a member's assigned workload. Members electing this component must have the teaching component of assigned workload reduced by at least twenty-five percent in order to ensure access to necessary time for scholarly work.

A distinction between "Scholarly Activity" and "Professional Development" shall be provided in the collective agreements. Such a distinction shall take into account separate (and potentially different) sources of funding.

Institutional funding must be secured to adequately cover faculty's scholarly activity requirements. To this end, FPSE shall lobby the Ministry for a component for scholarly activity in the formula funding mechanisms used to finance colleges and institutes.

### **ACADEMIC RANK, MERIT, PROBATION, TENURE AND EVALUATION**

FPSE recommends that there be no system of faculty ranking at university-colleges.

FPSE recommends that there be no allowance for merit pay (or other tangible forms of performance-contingent benefits) in university-colleges. Locals shall not negotiate another tier of salary accessible only by upper-level instruction. If rates of pay are too low to attract new faculty, locals shall advocate lifts to the whole salary scale.

Provisions for evaluation of scholarly work need to be negotiated into collective agreements and thus open to appeal procedures and the grievance process. A concise definition of "scholarly activity" is essential to any evaluation procedure. Peer evaluation is a necessary component of the evaluation procedure.

FPSE recommends that a meaningful length of time be allotted for the evaluation of scholarly activity, but that this length of time not be used to extend the probation period of faculty appointments.

### **COLLECTIVE BARGAINING**

FPSE shall establish informal or formal coordination of bargaining across locals involved with degree-completion programs.

FPSE shall seek the support of university faculty associations to strengthen claims at the bargaining table for premium terms and conditions of work.

Regarding the selection of internal candidates to the Universities' courses, locals shall attempt to bargain an internal process for the selection of the locals' members for upper-level course assignments. Locals shall attempt to ensure department involvement in the selection process and assignment of course work.

Regarding the selection of external candidates to the universities' courses, locals shall bargain an "in-house" selection committee with preponderance of faculty control. Consideration of internal candidates shall proceed prior to external selection in the seeking of qualified personnel.

FPSE recommends that there be no special allowance for "super-seniority" in upper-level instruction. No separate seniority lists within disciplines or areas shall be established in the collective agreement.

FPSE recommends that scholarly activity be a faculty-driven optional workload component. The evaluation of scholarly activity cannot be performed by the employer alone. It is proposed that such evaluation requires the judgment of discipline peers and colleagues, and it is recommended that locals bargain such faculty involvement in the process of scholarly activity evaluation.

### **MODEL LEGISLATION FOR UNIVERSITY-COLLEGES**

FPSE adopts the policy that university-colleges shall remain under a *College and Institute Act* rather than the *University Act*, but that extensive revision of that Act must take place.

The objects of a university-college include the provision of comprehensive courses of study sufficient to grant baccalaureate degrees in its own name; comprehensive courses of study in post-secondary education or training; and continuing education.

It is also recommended that provisions must allow for the granting of graduate degrees in areas of study specifically approved of by the Ministry.

The basic obligatory powers of the Minister (the ability to make grants to institutions; to require budget, financial and educational activity information; to approve programs to be offered; to require institutions to account for themselves periodically; and the necessity of the Minister to report to the Legislative Assembly) shall remain in a revised *College and Institute Act*.

Other powers and duties assigned to the Minister under the present Act shall be shifted, wherever possible and without disturbing the status of the institutions as agents of the Crown, to the agency, college, institute or university-college.

### **FPSE'S RELATIONSHIP WITH UNIVERSITIES**

FPSE recommends that the university-colleges shall be granted independent, degree-granting authority as soon as those structures for academic governance are in place at the institution. No university-college shall be granted independent degree-granting status until appropriate structures for academic governance are in place.

### **FPSE'S RELATIONSHIP WITH GOVERNMENT AND MINISTRY**

FPSE adopts the policy that FPSE and the post-secondary system vigorously lobby for changes in research granting agencies' criteria for grant allocation. These agencies must accept the academic designation of university-college faculty in a non-prejudicial way in allocating funds for scholarly activity.

FPSE adopts the policy that a task force consisting of representatives from Ministry, college presidents and faculty shall be struck to coordinate lobbying of research granting agencies, and to ensure that the university-colleges have appropriate structures in place to support faculty research. This lobbying must be initiated at a provincial level and take place at a national level.

“General meeting” means a meeting of the member organizations of the Federation, whether an Annual General Meeting or a Special General Meeting;

“Member organization” means a body described in Article 5.2 of the Constitution of the Federation of Post-Secondary Educators of BC;

“Officer” means a member of the Executive Committee;

“Presidents' Council” means the body described in Article 7.1 of the Constitution of the Federation of Post-Secondary Educators of BC; and,

“Special resolution” means a resolution passed at a general meeting by at least 2/3 of the delegate votes cast.

### PREAMBLE

The Federation of Post-Secondary Educators assumes and gives an increasingly important voice to the post-secondary narrative in BC and Canada. As a part of that mission, the Federation holds annual general meetings that are inclusive and democratic. To reflect the past and present dedication of its overall membership and employees, and to help ensure their vision is realized, it is essential that FPSE's general meetings be procedurally just.

The following policy, and its accompanying procedures, provide the rules for the introduction of resolutions to FPSE AGMs. The intent of this policy is to recognize and codify the various pathways by which resolutions appear on the agenda of an FPSE AGM. This policy, and its accompanying procedures, bring transparency to an important function of FPSE's governance, to ensure stakeholders have confidence in the predictability, reasonableness and fairness of the process. Ultimately, a smoothly executed AGM will ensure a greater number of more varied resolutions come to the floor for discussion and consideration.

### SUBMITTING RESOLUTIONS TO THE AGM

#### THE PURPOSE OF RESOLUTIONS IN THE GOVERNANCE OF FPSE

The main forum for FPSE's policy-making is the AGM resolution cycle. It provides an opportunity for member Organizations to express concerns, share their experiences and take a united position.

## **THE PURPOSE OF THE RESOLUTIONS SCREENING COMMITTEE AND ITS MEMBERSHIP**

The Resolutions Screening Committee's (RSC) primary role is to adjudicate resolutions to be considered by FPSE at its AGM. Adjudication includes receiving, screening (i.e. accepting and or consulting and or recommending), editing and sorting of resolutions for inclusion at FPSE's AGM. This work is undertaken with the aim of ensuring the business of FPSE's AGMs can be conducted in a timely, measured and fair manner.

## **COMPOSITION OF THE RESOLUTIONS SCREENING COMMITTEE**

The Resolutions Screening Committee is appointed by the Presidents' Council.

The committee shall consist of at least three members.

The one-year term of appointment shall be from the immediate end of the March PC meeting up until the end of the following March PC meeting.

Committee members may be reappointed by PC.

RSC quorum comprises a majority of the current Screening Committee membership present.

The deliberations of the RSC regarding the adjudication of resolutions will be treated as confidential.

A person shall cease to be a member of the committee:

- At the expiration of the appointment period.
- Through a decision of PC terminating the appointment.
- On a member's written notice to the President, or designate, of resignation from the appointment.
- On the date that the Committee member ceases to be a member of PC

Where membership in the Screening Committee falls below three, PC, at its next meeting, will appoint more members to restore the desired complement of the Screening Committee.

## **SUPPORT FOR THE RESOLUTIONS SCREENING COMMITTEE**

The FPSE President assigns a staff representative to work with the Resolutions Committee. The staff representative is responsible for:

- Working with the Resolutions Screening Committee to review all resolutions that arise during the AGM.
- Maintaining close liaison with the committee chair regarding the need for the calling of committee meetings.
- Vetting the final draft of each resolution with the committee, prior to reproduction of the document.
- Alerting the FPSE President to any issues related to resolutions that may arise.

## **RESPONSIBILITIES OF THE COMMITTEE**

Review all resolutions prior to AGM debate to ensure the following:

- The intent of the resolution is clear.
- The resolution is not contrary to the FPSE Constitution or its governing Policies or Procedures.
- The resolution does not conflict with existing positional policy. If so, the committee will bring this to the attention of the AGM.
- The resolution is not redundant (an area in which the Federation already has policy). If a resolution relates to existing policy, the Resolutions Committee may recommend that it be re-written as an action recommendation rather than as policy.

The Resolutions Committee, in consultation with the Executive, will prioritize AGM motions that have a financial impact on the operating budget prior to their being debated by AGM delegates. Where necessary, the Resolutions Committee will report to the AGM concerning recommended changes to resolutions.

Throughout the year, the following can put forward resolutions for the upcoming AGM:

#### STANDING COMMITTEES

- FPSE Standing Committees may recommend resolutions for the AGM to Presidents' Council. Such recommendations must be received by PC no later than the March PC meeting. PC may refer a recommendation back to the SC or approve it to become a resolution at the AGM.
- Any SC recommendation for an AGM resolution, received after the conclusion of the March PC meeting will be deemed to be late by the RSC.

#### PRESIDENTS' COUNCIL

- All action resolutions made by FPSE Presidents' Council, during the year, shall appear in the AGM program, in order to provide an opportunity for the AGM to confirm actions taken by Presidents' Council between AGMs.
- PC can recommend resolutions at any time.

#### INDIVIDUAL MEMBER ORGANIZATIONS

- Individual member organizations can put forward a local resolution to the AGM at any time.
- Local resolutions, received before the conclusion of the March PC meeting, may be reviewed by PC and may be recommended by PC to the AGM.
- Local resolutions received by the March PC deadline but not reviewed or recommended by PC, will proceed to the AGM as local resolutions.
- Local resolutions received after the conclusion of the March PC meeting will be deemed to be late.

- Up through to the March PC meeting, an individual's resolution will either be referred back to the member organization that moved the resolution or recommended by PC for inclusion at the AGM.
- Any resolution submitted under this section, after the conclusion of the March PC meeting, will be deemed to be late by the RSC.

**TIMELINES FOR SUBMITTING RESOLUTIONS TO THE AGM****BEFORE THE AGM**

Resolutions may be, and are, submitted throughout the year. To be included in, or considered for, a particular year's AGM, the following cut-off dates apply:

- Resolutions coming from member organizations are due by the conclusion of the March PC meeting. Member organizations' resolutions that miss this deadline will be considered to be late.
- Special resolutions are due the sixth Friday before the start of the AGM. Special resolutions that miss this deadline, will have to be considered at the following general meeting.

**DURING THE AGM**

- The RSC will accept late resolutions, for consideration up until 13:30 local time each day for possible inclusion in the next day's proceedings.
- For all resolutions received from the floor, AGM Rules of Order #1 applies: "All resolutions moved at AGM must be endorsed by the mover's and seconder's local presidents prior to submission to the Resolutions Committee and allow for distribution at least one hour before debate."

**HANDLING OF RESOLUTIONS BY THE RESOLUTIONS COMMITTEE****ORDERING OF RESOLUTIONS**

The RSC categorizes resolutions based on the following criteria (in order of importance):

1. Monetary
  - a. Emergency
  - b. Standing Committee
  - c. FPSE Policy or Position
  - d. Late
2. Non-monetary
  - a. Emergency
  - b. Standing Committee

**MONETARY RESOLUTIONS**

AGM motions submitted by Locals with financial implications to the operating budget of more than \$100,000 must be submitted at least 10 days prior to PC's March meeting. PC will make a recommendation to the AGM on each motion of more than \$100,000.

**LATE RESOLUTIONS**

Resolutions received by the RSC, after the conclusion of the March PC meeting, will be deemed to be late. Late resolutions will be added to the end of the AGM resolution list in the order they were received by the Chair of the RSC.

**EMERGENCY RESOLUTIONS**

Late resolutions that qualify as an emergency with respect to FPSE's normal activities will be inserted into the agenda subject to the above "Ordering of Resolutions".

**AMENDING RESOLUTIONS**

Normal resolutions can be amended from the floor. Amendments must be moved and seconded by member organizations.
